

THE BLAIRMORE ENTERPRISE

VOL. XIV, NO. 25.

BLAIRMORE, ALBERTA, THURSDAY, JUNE 21, 1923.

\$2.00 YEARLY

DEATH OF THOMAS HANCOCK

The death occurred at Coleman on Sunday morning last of Thomas Hancock, at the age of forty-one years. Mr. Hancock had been ill but a couple of weeks. He leaves a wife and several children.

Mr. Hancock was a brother of Mrs.

Harry Smith, of Drumheller, president of the Alberta Rebekah Assembly.

Interment took place at the Coleman cemetery on Tuesday afternoon and was largely attended. Mrs. Smith, of Drumheller, and other relatives were present.

BLAIRMORE SCHOOL TAX RATE 17 MILLS

At a special meeting of the Blairmore school board, held at the school house on Friday night last, the estimates for the year 1923-24 were considered and a rate of taxation was arrived at.

The table of estimates disclosed the fact that a sum of \$27,530 would be necessary to carry on the school for the year. In addition to the current expenses, a further amount of several thousands of dollars should be raised to meet a deficit caused partly through an underestimation last year and accumulation of tax arrears.

The estimates also provide for the opening of at least one new room, necessitating the employment of an additional teacher. To meet teachers' and caretakers' salaries the sum of \$18,860 was required; one official, including the secretary, \$1450.

The estimated receipts for the year include grant from the Department of Education \$3400; Educational Tax \$1840.

The total assessment of the district is given at \$1,874,759, less exemptions \$80,000, leaving the net assessment \$1,794,663, being an increase over 1922 of \$102,046. Five hundred and four lots, against which tax arrears are charged, have recently been taken over by the town. From these the school district will receive dues as they are disposed of by the town. The assessed value of the 604 lots is \$52,835.

A rate of seventeen mills on the dollar was struck and on motion it was decided to allow a discount of ten per cent upon current taxes paid within thirty days from date of posting or delivery of tax notice.

Mayor McLeod spent several days in Lethbridge last week.

DEATH OF ISAAC STEPHENSON

Death claimed another victim on Saturday morning last in the person of Isaac Smith Stephenson, at the age of thirty-three years.

Mr. Stephenson was by trade a blacksmith and for a number of years followed that vocation in the employ of the West Canadian Collieries here. Up to about two weeks before his death he was in enjoyment of apparent good health. Heart trouble is given as the cause of death.

Mr. Stephenson came to Canada from Crosby, Maryport, Cumberland County, England, twelve years ago, and came to Blairmore in the year 1914. About five years ago he married a Miss Huguet, eldest daughter of Mr. and Mrs. C. Huguet, and took up residence in North Blairmore.

He is survived by a young wife and two small children; also by a brother, Joseph Stephenson, residing at Coleman.

Funeral took place on Monday afternoon and was very largely attended. Services at the home and at the graveside were conducted by Rev. W. T. Young, of the Union church.

The pallbearers were mostly old country school chums of the deceased, T. T. Burns, J. Burns, W. Graham, Bob Burnham, Jack Johnson and Thomas Bouch. Floral offerings were many and beautiful, testifying to the respect in which he was held. They included a heart from Mrs. I. Stephenson and family, a cross from Mr. and Mrs. C. Huguet, a harp from Mr. and Mrs. Joyce and family, wreath from Mr. and Mrs. S. Stephenson and family, of Michel, B. C.; Anchor from Mr. and Mrs. Joseph Stephenson, of Coleman; wreath from Mr. Raoul Green; wreath from F. S. Kafury and family, heart from West Canadian Collieries, Three Links from Blairmore I. O. O. F., Sprays from Mr. and Mrs. John Paul, Mr. and Mrs. F. M. Pinkney and Mr. and Mrs. George Brown and family; spray from Mr. Charlie Joyce, wreath from Mr. Alex. McVey (a co-worker), heart from Mr. and Mrs. T. Hood, wreath from Mr. and Mrs. W. Graham, wreath from Mr. and Mrs. J. Burns and family, pillow from Local U. M. W. of A.

J. Caruthers, of the Calgary police force, and J. Riggs, of Fernie, B. C., are cousins of the deceased.

BLAIRMORE IN RACE

Old, Blairmore and Rockyford are the three visiting teams that will be in Calgary to compete in the Amateur Baseball Tournament to be staged at Victoria Park on June 25, 26, 27 and 28 by Lloyd Turner. There is a possibility that the Red Sox or some other Edmonton club may also enter. Riverside, The Hustlers and Y.M.C.A., will represent Calgary.

GASSOWSKI—LE CERF

Mr. G. Gassowski, of Saunders, was married to Miss Le Cerf, of Raven, at the rectory at high noon on Wednesday by Rev. Father Volish, and a happy party of relatives from Edmonton, Saunders, Raven and other points set down to a brilliantly-appointed and dainty wedding feast at the Commercial Cafe, the plants and bloom setting off a beautiful table. The young couple went south for their honeymoon, with the heartiest good wishes of relatives and friends—Red Deer Advocate.

Miss Le Cerf was until recently a stenographer in the general office of the West Canadian Collieries, Blairmore. Mr. Gassowski is a director and general manager of the Saunders Creek Collieries.

Among the chief opponents of the plans of the Moderation League are the bootleggers, indicating an appreciation of a good thing when they see it.

Money Waste

The middle aged man, mindful of his past will urge you not to waste small sums. He will tell you too, with a sigh of regret, what he might have accomplished had he, years ago, realized the multiplying power of trifling sums.

Stop all the waste you can, and keep your money in a savings account where it will grow to help your future.

Double your Savings "It CAN be Done."

DRUMHELLER WILL BE WELL REPRESENTED

As in the past, Drumheller district will be well represented at the annual rescue and first aid competition to be held this year in Blairmore, on July 2nd and 3rd.

In the mine rescue contest the Alberta Block Coal Co., and the Gibson Collieries will take part.

A.B.C. team: E. T. Moore, capt.; Jas. Sinclair, vice-capt.; A. J. Briggs, Geo. Ford, H. Brown and Sidney Smith.

Gibson Collieries team: Jas. Saunt, capt.; Jas. Watkins, M. Gibson, J. McDade, E. Richards and C. H. Brown.

In the first aid contest the Town of Drumheller will be represented by W. S. Cameron, capt.; J. Watkins, D. McAdill, Joe Travis, Harry Crowder.

The above team were the champions of Canada in the years 1921 and 1922, and under the able tutelage of Mr.

Cameron they have a chance to capture the championship again this year.

The Drumheller Mine Rescue Car No. 3, will leave for Blairmore on June 25th to be in readiness for the annual contest.

UNION OFFICERS ELECTED

The election of officers of Blairmore Local Union took place on Sunday last resulting as follows:

For President—F. Weir.
Financial Secretary—William Patterson.
Recording Secretary—Evan Morgan.

Auditors—Evan Morgan and John Anderson (re-elected).

In these prohibition days try this: Eat one handful of raisins, one half a yeast cake, drink half a pint of water and let nature take its course.

WORLD HAPPENINGS BRIEFLY TOLD

Prince Edward Island provincial elections will be held on July 26, according to a recent announcement.

The Marquis de MacMahon, prominent in the Franco-American Society and also an ardent Royalist, died recently in Paris. He was born in 1809. British subsidized airplanes carried 11,450 passengers last year. Not one person was killed, and only one was injured.

Mr. Justice Donald MacLean, of Saskatoon, and Mayor Howard McConnell, of Saskatoon, were elected to two vacancies on the University of Saskatchewan senate.

The shipment of cattle purchased in behalf of His Majesty the King, were gathered from Canadian experimental farms from as far west as Lethbridge, Alberta, and as far east as Kentville, Nova Scotia.

Twenty-one women students passed the recent examination for the British bar. Five of them passed their final examinations, thus bringing the total number of women now qualified as barristers up to 27.

The Zankoff Government in Bulgaria has issued a manifesto in which it "solemnly declares it is ready to execute loyally the Versailles Treaty stipulations with respect to the dignity of the great powers."

Lions Restaurant, the biggest in the world, which is located in Piccadilly, London, has been opened. Although two of its five floors were closed, 2,500 persons were served simultaneously and 30,000 were served throughout the day.

Eight captives, the last of the foreigners kidnapped by Chinese bandits who held up the Shanghai-Peking express near Suichow, May 6, and held at the Poyotaku mountain headquarters of the outlaws since that time, were released June 12.

It was announced at the annual meeting of the Royal Mail Packet Company that it is proposed to extend and strengthen the tri-weekly service between England and Vancouver, via the Panama Canal. The company's policy will be to speed and develop all inter-empire traffic in preference to foreign routes.

Minaid's Liniment Relieves Neuralgia

Saskatchewan Corn Show
The formation of the Saskatchewan Corn Growers' Association has excited a good deal of interest, and a very substantial list of prizes has been offered for the first provincial corn show at Maple Creek next November.

The word "longshoreman," a man who loads and unloads boats, is derived from the original "along shore man."

RED PIMPLES ON FACE 3 YEARS

Itched and Burned, Lost Sleep, Cuticura Heals.

"My face was affected with pimples for about three years. They were hard and red, and itched and burned so much that I could not sleep. I had many a night's sleep on account of the itching. I read an advertisement for Cuticura Soap and Ointment and sent for a free sample which helped me so I purchased more, and after using four cakes of Soap with the Ointment, I was healed." (Signed) Miss Martha Thomas, R. 2, Box 49, Vining, Minn.

Give Cuticura Soap, Ointment and "Take the care of your skin." Send for free sample which helped me so I purchased more, and after using four cakes of Soap with the Ointment, I was healed." (Signed) Miss Martha Thomas, R. 2, Box 49, Vining, Minn.

Crop Prospects Never Better

All Indications Point to a Bumper Crop This Year

Prospects for even a bigger crop in Western Canada than the bumper one last year were never better so far. Recent rains have saturated every foot of the prairie provinces and no area is without an ample supply of moisture. Warm weather since the rains have sent vegetation along with a jump. For miles on end as far as the eye can reach, the wheat fields form an unending carpet of green, while in the cities and towns trees by the roadways show a riot of growth; on lawns, lawns are in bloom, and in backyards fruit and vegetables are flourishing. Several prominent farmers who never yield to undue optimism, and who have known Western Canada intimately for twenty years, express the general opinion in saying that prospects, from a crop standpoint, were never better at this season on the prairies.

On the Marriage Day

Romance usually ceases, and history begins, and, as a consequence, to go when "Putnam's" is applied. It takes out corns, roots, branches, stems—no trace of a single corn left after Putnam's. Putnam's Corn Extractor has done its work. 25c at all dealers. Refuse a substitute.

Schoolboy Found Rarest Stamp
The rarest stamp in the world, the British Guiana one cent of 1856, was found by a schoolboy in British Guiana. There was no space for it in the boys' album, and he sold it for 6s. It afterwards came to Scotland, and was bought by the late Philip von Ferrary. Last year it was sold to Arthur Hind, of Uita for £1,342, a record price.

LOW SPIRITED AND DEPRESSED

A Condition Due to Poor Blood and Weak Nerves

Nearly all women and most men suffer at times from fits of depression and low spirits, from which they are unable to free themselves. They cannot attend to their duties satisfactorily and are unable to get any pleasure out of life. People who suffer in this way soon lose their courage of mind and body. They lack vitality, become listless, and their nerves are starved in consequence. The only way to obtain new health is by building up the blood with Dr. Williams' Pink Pills. The new rich blood made by these pills will carry renewed health and energy to every part of the body. Your appetite will improve, your spirits brighten and you will be endowed with fresh courage to meet the new day in living. Mrs. G. Reid, Napanee, Ont., tells of the benefit she found through the use of Dr. Williams' Pink Pills. She says: "I have used Dr. Williams' Pink Pills on different occasions and cannot emphasize too strongly the benefits derived from it. I was growing nervous, my complexion was becoming sallow, my eyes dull and listless. My vitality was poor and I did not sleep well. I became dependent, losing interest in my work, which seemed to tire me so easily. I began using Dr. Williams' Pink Pills and after taking six boxes I began to enjoy life again and looked much brighter and felt happier. My appetite improved, I gained in weight and could sleep without any nervous wakefulness during the night. I also used the pills while nursing my baby and found them a wonderful help both for myself and for making my baby better natured. For these reasons I gladly recommend them to anyone who needs a tonic for the rebuilding of strength and energy."

You can get these Pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To keep milk fresh in warm weather, stand the jug in a kettle of cold water on the stove. When the water boils, the milk is scalded and should be set away in a cool place.

Minaid's Liniment for Distemper

A Commendable Habit

Pays to Have Time Schedule and Observe It.

The habit of poise for the day, the calm application of the mind to study, the sense of being in control, the freedom from fears of failure and defeat, the opportunity for reflection, the incentive to visualization, the thoughtfulness and sympathy for others—these are additional virtues likely to reward those children who are taught to be regular and punctual in beginning the day's work. Probably no other mechanical habit in a child's life is quite so important as this commendable habit of being on time and having a time schedule for every routine duty. It gives one early a sense of ease and self-mastery, and tends to make all common work a pleasure.

Fits in Well Now

Long before the automobile it was written that "the prudent man looketh well to his going."—Tobias Blaise.

Milk will remove stains from cloth if it is applied immediately.

An Up-to-the-Minute Suit

Very charming in its novelty is this three-piece suit of sand colored canton crepe, box pleated. The similarity of our coat is of palesey with a pale-ly fringed scarf to match.

Sores Heal Quickly—Have you a persistent sore that refuses to heal? Then try Dr. Thomas' Electric Oil in the dressing. It will stop itching, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

Securing Domestic Help from Overseas
The Canadian Pacific Railway has added to its London, England, office, a Woman's Department, where applicants for bona-fide domestic are received and investigated by a travelling woman inspector, with long experience in selecting domestic help, who looks into references and requirements on both sides. Accepted applicants are being sent to Canada from time to time, in personally conducted parties.

For Sprains and Bruises—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by concentrating the inflammation. A trial will convince any who doubt its power.

Any article of clothing soiled with paint should be rubbed immediately with spirits of turpentine. A second application may be necessary after the first has dried.

CATARRRH

Catarrrh is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic, taken internally, and acts through the mucous membrane of the system. HALL'S CATARRH MEDICINE restores normal conditions. All Druggists. Circulars free. S. J. Clarke & Co., Toledo, Ohio.

To prevent cakes from sticking, grease the tins with lard—not butter—and sprinkle lightly with flour. Also remember, coarse sugar is one of the causes of heavy cakes.

Many people are almost crippled with corns. But it is needless suffering which can be speedily ended with Holloway's Corn Remover.

Two of the best germ hunters in the employ of the U.S. San are women—Miss Ida C. Beagston and Miss Alice C. Evans, are engaged in research work in the hygienic laboratory of the United States health service.

HORSESMEN!

Minaid's should be in every stable. Quickly heals cuts and bruises and removes swellings.

Pocket Gramophones

Can Carry Your Music Around in Your Vest Pocket

The first timepieces were huge. Now they go on your wrist. The same thing has happened to gramophones. A Hungarian mechanic has invented a gramophone no larger than a watch, and his slogan is, "Carry your orchestra in your vest pocket." The invention is described as a practical instrument, capable of producing jazz, waltzes, and one-step. "The Miklaphones," as it has been christened, winds like a watch, and has a speed regulator. There is room inside for ten plates, giving a repertoire of twenty selections. In the other vest pocket you carry enough music for an all-night session. By placing the instrument on a champagne glass the sound is amplified sufficiently for an ordinary-sized ballroom.

Calgary Stampede

Replica of Old Time H.B. Fort Will Be Shown

A replica of an old-time Hudson's Bay fort, such as once was the nucleus of the western posts of the great company, and which still exist in the far north, will be erected at the Calgary Exhibition Grounds, July 9 to 14, as a part of the big stampede feature. Special arrangements are also being made to provide a commodious camping ground for the Old-Timers, who will attend with the old-fashioned chuck wagons and cowboy equipment.

Listless, Tired Women Quickly Restored

Headaches and Depression Pass Away When System is Regulated

Must Overcome Constipation

No other remedy acts as quickly on tired women as Dr. Hamilton's Pills. They cleanse, regulate and tone the system, appetite, sharpen up, headaches disappear, strength and buoyant spirits return. To feel good, to be your own self again, use Dr. Hamilton's Pills frequently. 25c at all dealers.

Demand For Western Wheat

Wheat grown in Western Canada has for several years been in demand from all parts of the United States and the Old World. That the reputation of this high grade wheat is increasing is evident from the fact that a Winnipeg seed company recently received an order for 500,000 bushels of seed wheat from the Argentine Republic.

Miller's Worm Powders are complete in themselves. They not only drive worms from the system, but remove the cause that worms cause and so invigorate the constitution that it speedily recovers from the disorders of the digestion that are the result of the work of these parasitic intruders. They do their work thoroughly and smoothly and soundness follow their use.

CIRCLE TOURS OF UNRIVALED SPLENDOR

ENDLESS SCENIC PANORAMA AWAITING TOURISTS OVER C.P.R. LINES

Picture the quiet beauty of England's Lakeland, the grandeur of the Adirondacks and the towering splendor of Swiss mountains, and you will be able to form some idea of the endless scenic panorama which awaits the vacationists taking THE CIRCLE TOURS OF THE CANADIAN PACIFIC.

These delightful tours may be made through Calgary, entering the Rockies at the Gap, through beautiful Banff, lovely Lake Louise and Glacier, leaving the main line for a cruise down the Arrow Lakes, Kootenay Lake and back via The Crow's Nest Line. The second tour takes in the same resorts, but extends further through Sicamous and down the picturesque Okanagan Lake to Penticton, returning through the Crow's Nest Line. (Both tours apply in the reverse direction if desired.)

These wonderful tours are moderately priced, and offer (as well as a princely feast of scenic beauty of mountain, lake and woodland) unrivalled comfort of travel. From the moment of starting until the hour of returning the vacationist is assured of a holiday long to be remembered, for the comprehensive nature of the holiday entertainment and the de luxe travelling arrangements which enable the fullest possible enjoyment to be had from start to finish.

Excursion fares for these tours are on sale daily to September 30th, allowing stopovers at any of the delightful resorts. The return limit is October 31st.

One day a teacher asked her class if any of them knew what a skeleton was.

Finally one youngster stated triumphantly:

"A skeleton is a man without any meat on him."

SMOKE OGDEN'S CUT PLUG

Inter-Provincial Telephone Service

Link Prairie Provinces Into a Complete Telephone Unit

Direct telephonic communication between Manitoba and Alberta through Saskatchewan will be established in the course of the next few weeks, it was announced at the close of a two-day conference between telephone officials of the prairie provinces held in Regina.

Manitoba was represented by J. E. Lowry, Commissioner of Telephones, and J. W. Delaney, auditor; while R. E. Baxter, General Superintendent, and W. C. Bruce, Traffic Superintendent, represented Alberta; and Saskatchewan by D. C. McNabb, Deputy Minister, and W. Warren, Chief Engineer.

The question of inter-provincial rates was also discussed, but no decision was arrived at on this point, pending consideration by the Saskatchewan Government of the proposals submitted. At present Manitoba and Alberta have a two-minute long distance rate while Saskatchewan has a three-minute rate.

Direct communication between Manitoba and Alberta will be possible when repeating apparatus has been installed at Brandon. This will be done in the course of the next two weeks. The effect of the new installations will be to link the prairie provinces into a complete telephone unit.

Good Ammunition

Customer—I like that umbrella stand, but I don't think it is worth \$2.
Salesman—Why, madam, the very first umbrella that is left in it may be worth more than that.—Boston Transcript.

DRUMHELLER UNITED DRAWN AGAINST BRULE IN U.S.W.A. CUP COMPETITION

The draw for the Peacock Cup, emblematic of the United Mine Workers championship, was made Wednesday afternoon by R. Stephen, representing the Alberta Football Association; R. Peacock, secretary of the United Mine Workers, and a representative from the Drumheller and Brule clubs, and resulted as follows: Fernie vs. Coal Creek vs. Coleman. Blairmore vs. Lethbridge or Commerce.

Drumheller vs. Brule. Semi-Final. Fernie or Coal Creek vs. Blairmore or Lethbridge or Commerce. Final. Winners vs. Drumheller or Brule. Games to be played on the ground of first named club, with final in Calgary on July 21. Dates of preliminary and semi-final rounds will be arranged between the clubs and Secretary Peacock. A referee to be selected by the Calgary Association will take charge of the Drumheller-Brule game.—Drumheller Review.

CANADIAN COWMEN BEHIND STAMPEDE

That the Calgary Exhibition, Stampede and Buffalo Barbecue scheduled to be held the week of July 9th to 14th will outdistance anything of a like nature that has ever been held on the North American continent, seems to be an assured fact.

First of all, there is no place in the West that has the natural location, with such scenic embellishments, right at its door, the historical activities, the honored traditions of the Royal North West Mounted Police, the native reservations practically at the city limits, the cowmen in their picturesque work, and last but not least, the great number of old timers, both men and women, who still live in the vicinity; men and women who are actual pioneers of the Last Best West; whose untiring efforts and strenuous undertakings in a primitive country are the real cause of the wonderful development that has been attained in this country in comparatively few short years.

From the time of the stupendous Stampede parade on Monday morning, July 9th, until the feed of buffalo meat cooked in deep pits over a roaring fire Saturday night, July 14th, Calgary will really turn back to the good old days of the pioneer west. Citizens will wear cowboy attire and the main streets will be reserved during the mornings for saddle horses and Indian cayuses, chuck-wagons, cowboys and cowgirls.

The parade alone will be well worth going a thousand miles to see, illustrating the old West, and the Indians, up to present day development. On the grounds, the Hudson's Bay Company are erecting a permanent log trading post; the Southern Alberta Old Timers Association and the Royal Canadian Mounted Police Veterans' Association are each erecting permanent log headquarters. These will be surrounded by Red River carts, Indian tipis and a real Indian village.

The event is to crown the Canadian champions in the various cowboy sports, also Provincial champions, for which generous cash prizes are offered, as well as the grandest list of special prizes ever offered for any sporting event. The special prizes include sterling silver horses and cigarette case presented by H. R. H. The Prince of Wales, magnificent trophies from Mary Pickford and Douglas Fairbanks, buffalo heads and robes, saddles, etc.

That week Calgary will celebrate the opening of the Banff-Windermere highway, and will pay tribute to the pioneer cattlemen of the North West in a way that will be a surprise to the thousands of visitors from a distance. Special free accommodation bureau will be maintained at the station, so that there should be no difficulty in procuring accommodation. Those wishing to camp will find ideal free auto camp with every convenience placed at their disposal.

Prize list, illustrated folder and full information may be obtained by writing to E. L. Richardson, Exhibition Manager, or Guy Weadick, Stampede Manager, Calgary, Canada.

The American state bank in Kansas has closed its doors, following the discovery of the defalcation of \$1,500,000. The cashier of a branch used the bank funds to invest heavily in oil property.

A movement is on foot for the erection of a swimming pool at Cardston and already the sum of \$250 has been subscribed for the purpose.

DEATH OF MRS. JOHN EGAN

The death occurred on Friday evening at ten o'clock of Mrs. John Egan at her home on Fraser Avenue. The late Mrs. Egan was well known in Sydney Mines and her passing away was a distinct shock to her many friends. In religion she was a staunch member of the Catholic church and always took an active part in church affairs. She is survived by her husband and four daughters, Mrs. J. R. Francis, and Mrs. Henry Lockman, at Sydney Mines, Mrs. Henry Dunlap, of Ottawa, and Mrs. D. F. Fleming, of Blairmore, Alberta; also three sons, Dr. W. J. Egan, now on his way to Montreal, and George and Joe residing at Sydney Mines. The funeral will take place from the church of the Immaculate Conception on Tuesday morning after Requiem Mass which will be sung by Father McKinnon. Interment in St. Mary's cemetery. Her daughter, Mrs. Henry Dunlap, and a relative, Mr. William McGowan, are expected to arrive in Sydney Mines on Monday night to be present at the funeral.—North Sydney Herald.

CANCER EATEN AWAY BY 250,000 X-RAY VOLTS

NEW YORK, June 18.—Miss Anna Ellen, of Spring Valley, N. Y., woman cancer patient at Bellevue hospital, has undergone 250,000 volts of continuous X-ray treatment. Although surgeons have now announced the result of the operation, they assert it was successful, that the patient was able to eat and sleep through the treatment, and suffered no pain.

Dr. E. S. Smith, head of the X-ray laboratory, said this marks the first of a new method which gave the rays a radiation which would kill the cancerous cells and leave the healthy ones unharmed.

Miss Ellen, who is 29 years of age appeared in good spirits when the current was turned off. Dr. Hirsch said she had become nauseated, which he regarded as a favorable indication that the rays were attacking the diseased tissue.

The secret of the woman's treatment became known for the first time this morning.

Medical men are watching the experiment closely, particularly in view of the statement by Dr. William J. Mayo, of Rochester, Minn., before sailing for Europe this week that no cure for cancer had yet been found.

Dr. James E. Wing, cancer specialist of Cornell university, and the memorial hospital, when told of the experiment, said that judging from his own experience he would predict that any patient kept under such terrific voltage for so long a period would suffer the effects for the rest of life.

In Miss Ellen's case, the cancer was attacking the abdomen.

TRIDER CASE MAY BE APPEALED

There exists a possibility at the present time that the crown will institute an appeal against the verdict which freed Elmo Edgar Trider, former Calgary traveller, on a charge of the murder of Constable Charles N. Paris, of the Drumheller Town Police.

This statement was made Tuesday night by James Short, K.C., crown prosecutor for the Calgary Judicial District, who, with Arthur L. Smith, K.C., as associate, conducted the crown's case at Trider's trial here last month.

Mr. Short added, however, that no definite decision had yet been reached on the question of the crown authorities, and that until such time is a decision was arrived at no definite assertion could be made.

Asked upon what grounds the appeal would be made, if at all, Mr. Short said that it would all hinge on points of law.

And now it is reported that one can buy to less than 143,000 German marks for a good dollar bill.

SHOULD REPLACE VICTORIA BRIDGE

It is now nearly four weeks since the Victoria Street bridge was carried away by the floods and the water main disconnected. Since that time no less than four blocks of the highest section of Blairmore has been without water and residents of that section between Ninth and Tenth Avenues have been isolated. It is time the council took some action towards even erecting a temporary bridge at that point. We understand that the government is prepared to offer the town the amount paid by the town towards the cost of construction of the Victoria Street bridge and that with the use of the iron at the bridge and other materials already on the grounds a bridge sufficient to carry the traffic could be built. Also, it is a serious matter to allow the water to be cut off from the most important section of the town for such a long period when at the outside a few days' work could relieve the situation.

TOURIST TRAFFIC WILL BE HEAVY

A very heavy tourist traffic to the province from the western and Pacific States is predicted by C. G. Groff, publicist commissioner, who returned the past week from a three weeks' trip over a 4000-mile route of the grand cycle tour through Montana, Idaho, Utah, Nevada, California, Oregon and Washington. The tour was made in company with officials of the Calgary Board of Trade, who were linking up the Blue Trail, of which the new Banff-Windermere highway forms the final link. Mr. Groff took occasion during the tour to distribute literature and information concerning the province in general, with respect to its attraction both for tourists and settlers. Keen interest was displayed in the States visited, particularly in Banff and Jasper Parks, and it was found that a great many auto tourists already were planning to visit the province.

BLAIRMORE HAS LORD'S DAY ACT

On Sunday last the Lord's Day Act was put into force in Blairmore, and as far as we can learn no other town in the province of Alberta was so seriously affected by that Act on that day, and we understand that an effort will be made to find out why Blairmore should be singled out as the victim of the experiment. The Act as it now stands became operative several years ago, and was for a few days enforced before the time of the Bassett holdup and murders. At that time several Chinese restaurants through this district were caused to make breaches and were assessed small fines. Since that time there has not been a word of the Lord's Day Act being enforced and beyond the smoking of a few cigarettes or enjoyment of an occasional ice cream cone, the Lord's Day, as far as the public are concerned, has been fully observed. The Act requires that you must consume all you purchase on a Sunday on the premises where purchased, and that all who buy tobacco in all its forms must make use of same there; and as a result restaurants since every phase of respectability since patrons are obliged to eat where they are smoking or chewing an obnoxious weed. Can anything more ridiculous be conceived by our present day moral reformers? There are avenues galore in which the time of our peace officers can be utilized to better advantage.

One hundred and fifty delegates of the Canadian Weekly Newspapers' Associations will tour the British Isles and different parts of the continent of Europe next summer and will hold their convention in London. The party will leave for England about the first of June, 1934, and will attend the British Empire Exhibition.

A man named Kelly was taken to Lethbridge last week end to serve a sentence for six weeks for passing a worthless cheque.

Labor Reductions On Automobile Repairs

We are now operating our repair shop on the Flat Rate Plan. By this plan the automobile owner knows what the job is going to cost before the work is commenced. The following are a few prices on Chevrolet repairs:

Overhaul Motor	\$33.00
Overhaul Rear Axle and Propeller Shaft	\$8.25
Overhaul Transmission and Universal	\$8.25
Grand Valves and Clean Carb	\$5.50
Rebush Steering Knuckles and Plain Arms	\$4.50
Reline and Adjust Brakes (per set)	\$3.00
Tighten Main and Connecting Rod Bearings	\$7.75
Clean Carburetor	\$1.00
Retime Ignition	75c

Copies of Letters From Official Sources re Roads

The following correspondence has taken place between the Southern Alberta and Eastern British Columbia Tourist Association and the governments of Alberta and B.C., respecting the international highway through this district, which to say the least is simply disgraceful. In spite of all appeals made to the government to have rush repairs effected following the recent floods, very little is being done and even today the road is in such a condition nearing the B.C. boundary that motorists are obliged to take the old unkept trail over the Summit. As a result, this district is suffering because of tourist traffic being curtailed.

Blairmore Board of Trade
Blairmore, Alberta,
June 16th, 1923.
The Honorable Alex. Ross, Esq.,
Minister of Public Works,
Edmonton, Alberta.

Dear Mr. Ross:

It has been brought to our attention that the road between Crow's Nest and Blairmore will likely be closed for more than three weeks, owing to the stream dividing the two lakes at Crow's Nest having changed its course and covering the road to a depth of between five and eight feet; the situation is, therefore, quite serious and although we wired you a few days ago, we wish now to advise you that the matter is more urgent than ever. The tourist travel in particular is now under way, and numbers and number of tourists are arriving here daily and find it necessary to ship their car from here to Fernie. Unless something is done at once, this matter is certainly likely to put a ban on the Crow's Nest Pass Auto route, particularly if the idea should get abroad that this road is unsafe for travel during the month of June. We have reason to understand that reports of this nature are now becoming widespread, it is a matter therefore, that should be given immediate attention, and as we feel sure that your Department is exerting every effort to cope with this unusual situation, and it is with this end in view that we are bringing the matter to your attention.

Trusting that you will see that the question of roads is rushed as much as possible.

Yours very truly,

W. BIRD,

Secretary.

Southern Alberta Tourist Association
Fernie, B. C.,
June 17th, 1923.

The Hon. Alex. Ross,
Minister of Public Works,
Edmonton, Alberta.

Dear Sir:

I have your letter of the 14th inst. in which you say that the road between Blairmore and Crow's Nest is now open for traffic. On receipt of same I showed it to our engineer in charge of the Fernie district in which the road to the Crow's Nest Divide at the border is, and he made a special trip down there this morning (Sunday) to have tomorrow work done on one of our bridges so that it could be driven over in safety. After he had attended to that, he went on to Crow's Nest to investigate and found that there is still over three feet of water on the road on this side of the two lakes caused by Glacier Creek having broken its banks, and where the water has subsided there are immense holes, and that it is absolutely impossible for any car to be driven along that road. On further investigation he is convinced that two or three men could divert the stream back to its original channel or force it to make another which would not endanger the road, in two or three days at the most.

Yesterday a few cars came into Fernie by way of the old road over the Summit, two of them were stuck there all night, and that road is also now impassable. The B. C. road to Crow's Nest will be in perfect condition by noon tomorrow (Monday).

In view of the above facts, which I have no doubt you will find to be correct, will it not be possible for you to give immediate instructions to have the road opened as expeditiously as possible. I have just been informed that there are 56 cars waiting in Spokane to come through, and that over 30 others have abandoned their trip into Canada through this. Reports are being spread throughout the country that it will be six weeks before the roads are opened and there is no doubt that as it is the loss of this unfortunate trouble has caused amounts to several thousands of dollars to our merchants and will mean the loss of many thousands more. I realize that many of your roads and bridges have suffered

through the recent floods and that the expense of repairing them will be great, but as this is the only through road, and means so much to both your province and British Columbia, I feel sure that you will make an effort to have it made reasonably passable immediately.

Yours very truly,

J. FRED SPALDING,

Commissioner

The Secretary,
Spokane Chamber of Commerce.

Dear Sir:

I beg to acknowledge your letter of the 12th, in which you state that you have received alarming reports about conditions of the road between Crow's Nest and Fernie.

We have also received rather alarming reports in Edmonton. The water rose very high and in some places the roads were covered with two or three feet of water, so we said reason to be alarmed. THE ROAD IS NOW OPEN FOR TRAFFIC, but naturally not in a very good condition. We are replacing all the bridges temporarily, but intend building permanent structures during the summer months, and so far as my information goes, this road is not passable on this side of the British Columbia line. There will have to be a considerable amount of improving done during the summer, but the tourists will have to put up with some slight inconvenience for some little while.

Yours very truly,

(Signed) ALEX. ROSS, Minister of Public Works,
Edmonton, Alberta.

June 14th, 1923.

Sandpoint, Idaho,
June 18th, 1923.

To J. Fred Spalding,

Commissioner,
Fernie, B. C.

Dear Sir:

On receipt of yours of recent date, re the road north of Bonner's Ferry, we took this up with the Kootenai Valley Commercial Club at Bonner's asking them to get into touch with the County Commissioners, as this road in question is a County road and not a State road, and today received a communication from them in which they say:

"There was a delegation of our club went up and looked over this road, and then waited on the County Commissioners last Monday, and they were very nice about it and immediately sent a crew of men and some trucks and were working on it yesterday."

today, they are graveling it and expect to stick with it until they make a good road of it."

So it looks as though we have no immediate results.

Yours very truly,

(Signed) ANDREW CHRISTENSON,
Secretary of Sandpoint Chamber of Commerce.

REPORT OF COMMISSIONER SPALDING

To The Directors of The Tourist Association of South Eastern British Columbia and Southern Alberta.

I herewith tender you my report of my recent drive to the coast for the purpose of attending the Sportsmen's and Tourists' Fair at Spokane, from May 22nd to the 27th, where I had a booth and exhibited pictures of the best of our scenery, and carried on information Bureau. My exhibit treated a very great deal of interest and had a crowd around it all the time. The first day I kept track of the number of motorists who saw my exhibit driving up here then and asked for maps and particulars regarding what to do and where here, and the number was 26. The rest of the time I was not able to keep track of them, but the following days were busier with the exhibition of the last day. The exhibit was attended by over 125,000 visitors on the five days, and I believe that was able to induce most of those who made enquiries, to decide to come during this summer. While here I was invited to speak at its banquets and told them of our good roads and scenery. I also condemned the condition of the road between Linggate and Bonner's Ferry while extremely bad, and pointed out that it will cause very much unfavorable comment by those who have driven over it, and do a lot of harm over the country, and as Spokane is much interested in the travel over the Banff-Windermere road as any of our own Commissioners, advised them to take concerted action with the Idaho Chambers of Commerce and try to get some immediate action. This resulted in action being taken and work is now being done on that stretch of road and considerable improvement will be made before the opening of the Banff-Windermere road.

After the exhibition was over, continued on to Vancouver, and on the way called at the information bureau and garages in the larger towns and have them all the particulars I could about these parts, and left maps with them all. I had a Banff-Windermere road sticker on my windshield and at every place I stopped people came around to know about it. Many of them will undoubtedly visit here as a result.

I spent five days in Vancouver and visited both of the Automobile Club and the City Information Bureau and went very thoroughly into matter with them. They are now in a position to give intelligent information respecting the roads here, which the have never been able to do before. Several of the hotels and garage there have information desks, and saw each of them whilst there.

I spent a day in Seattle on my way back and did the same there. When I left there I stopped at different towns to those I did on the way out and found that the Banff-Windermere sticker created just as much interest in them as it had in the other, and in summing up my impression resulting from the trip I feel sure that we have considerably underestimated the numbers of visitors to the Banff-Windermere road will bring.

I found out that very few of the people to whom I answered inquiries intended to make their return trip by driving down by way of Glacier Park. What they intend to do is simply make the Circle-Tour from Cranbrook end, back to Cranbrook and home, and think that by far the greater proportion of our visitors from Idaho, Washington and Oregon will take that route owing to the roads being so much better and the grade being as easy compared with the one along the other route.

I took three thousand of our new maps, 250 of the Dominion Booklets

about the Banff-Windermere Road, and 200 of our last year's Booklets away with me, and only had three of the maps left and I do not think that any of them were wasted.

I have to call your attention to a new or which is likely to cause serious loss of revenue to all our towns through the curtailment of much of our prospective tourist travel from California and Oregon.

I was invited to attend the banquet of The Greater Vancouver Publicity Association at the Vancouver Hotel on June 1st, at which the principal speaker was to be Mr. M. Carrigan, the Publicity Commissioner for Seattle. About 150 of the principal business men of Vancouver were at the banquet and Mr. Carrigan outlined the campaign plans of Seattle in which he stated that Vancouver was participating in. I was expected to address the meeting after he was through, but after listening to what he had to say, I decided that it would be better for me to say nothing, so I left immediately he finished. Briefly summed up, their plans are as follows:

First he stated that Seattle had a fund of \$150,000 and that Vancouver's co-operation would give them \$180,000 to spend this year. They were going to open up ten Information Bureaus each of which would be in charge of the most competent men they could procure, and they would be located in such places as the principal centres in California, Salt Lake City, at Yellowstone Park, at Portland and Walla Walla, and that their entire energies would be directed to getting into personal touch with every tourist coming up to his section of the Rockies and diverting every one they could up to Seattle and Vancouver instead. At each of the most prominent points of travel they would have an immense sign board which would have a map showing the route from where it was faced up to Seattle and Vancouver, stating that it was a paved road through wonderful scenery and that he roads up to our section were only dirt and gravel and not too good at that. He said that 65 per cent of the motorists who visited Yellowstone Park had their itinerary all planned up to that point, and from there could be induced to go anywhere, and expressed his firm conviction that he would be able to divert at least 50 per cent of it up the Pacific Coast.

I called on Mr. Carrigan in Seattle in my way through and he gave me the details of his plan. If they are carried out, it will make a very serious inroad into our tourist travel, and make it imperative for us to take immediate steps to counteract their effect.

Ordinarily results from publicity campaigns of the usual channels of advertising take from one to three years to be noticeable, but this plan is a new departure and will show results immediately as the tourists are to be met personally en route and diverted.

In our Rockies we have perhaps the greatest scenic attractions on the American continent, but we must not lose sight of the fact that by far the greater number of Americans do not now this, and a convincing talker meeting them can undoubtedly influence them against the Rockies in favor of the Pacific Coast. The men who will be in charge of those Information Bureaus, according to Carrigan, will be convincing talkers. There is wonderful scenery all up the Pacific Coast highway which is mostly all paved now, therefore they have a very strong argument to use, especially strong in view of the fact that all motorists prefer good roads and it must be admitted that many of the roads leading to here are not good ones, compared with the Pacific Highway.

In my opinion the matter is a serious one and I would advise an early meeting of our Directors to discuss it will you therefore please let me know what your advice respecting this is at as early a date as possible.

Respectfully submitted,

Yours very truly,

J. FRED SPALDING,
Commissioner

Here and There

Saskatchewan's crop cost \$127,000,000 to produce last year. The proceeds amounted to \$247,000,000.

During the month of April and the first two weeks of May 300 claims were registered in the counties of Temiskaming and Abitibi, the gold field of the province of Quebec.

Twenty marriage engagements are among the results of a round-the-world voyage of a C.P.R. liner. Mr. Beatty has a lot to answer for. —Ottawa Journal.

With a population which is over 70 per cent rural Saskatchewan has a larger automobile registration than any other province. One in every 15 people owns a car.

One of the largest fish caught in the history of Lake Umbagog was recently caught by E. B. Hamlin who, with a small bass hook and light steel rod landed a salmon trout weighing 28 and 34 pounds and measuring three feet in length.

In 1920 there were cut in Canada 4,024,826 cords of pulpwood. This would, if piled four feet high and four feet wide, reach in a continuous line over 8,000 miles, or the distance from Vancouver to Halifax, about over the Atlantic to Quebec, Ireland.

Trees to the number of 10,000 were distributed among 8,000 school children by the Parks Officials and Dominion Forestry Branch on the occasion of Arbor Day. Each child received one maple and one ash. Last year only 5,000 trees were distributed.

The Empress of France, of the Canadian Pacific Line, now on the trans-Atlantic service between Hamburg, Southampton and Quebec to Quebec, holds the record for the shortest journey between Quebec and Liverpool, having crossed in 5 days, 22 hours and 34 minutes, just two hours less than the Empress of Britain.

General Sir Arthur Currie will unveil a memorial cairn at Sault Ste. Marie to Etienne Brule and his companion Grenouille, the couriers de bois, who found the route and discovered Lake Superior in 1622. The unveiling will take place August 7th during Discovery Week, when the Olympics will produce "Hiawatha" on two afternoons.

Notwithstanding that there will be an increase this year in Canadian Pacific mailings, the company, Mr. Lawrence, with 17 more sailings than in 1922, Canadian Pacific officials report that ships are being well booked and that according to present indications the 1923 season will show improved trade in ocean trade from both Montreal and Quebec.

Whales are reported early and plentiful this season and dispatches from Victoria state that the whaling surrounding the inauguration of the deep-sea hunt this year are the most promising in the history of the industry. The demand for canned whale meat has become so pronounced that the prospect of a large catch of Victoria whalers is already disposed of. England will be the distributing market for canned whale meat this year.

A replica of an old time Hudson's Bay Fort, such as such a nucleus of the western posts of the great company, and which still exist in the far north, will be erected at the Calgary Exhibition grounds, July 9 to 14, as a part of the big Stampede festival. Special arrangements are also being made to provide a commodious camping ground for the Old Timers who will attend with the old-fashioned chuck wagon and cowboy equipment.

Running on schedule the Canadian Pacific Steamship's liner "Empress of Canada," Captain A. J. Halley, again demonstrated her right to the claim of "Queen of the Pacific." The Canadian vessel left Vancouver twenty-four hours behind the American liner "President McKinley" bound for Yokohama recently. The "Empress of Canada" looked about 3 A.M. and the "President McKinley" arrived at 8 A.M.

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 20th of July, 1923, for the conveyance of His Majesty's Mail, on a proposed Contract for four years, twelve times per week on the route PASSBURG and CATCH POST (Canadian Pacific), from the 1st October next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Office at Passburg and at the office of the Post Office Inspector.

POST OFFICE INSPECTOR'S OFFICE, CALGARY, June 8, 1923.

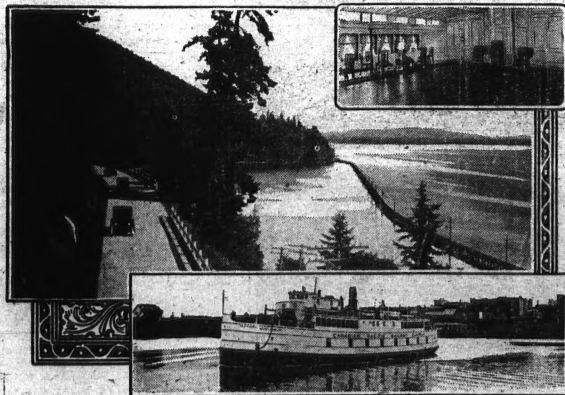

D. A. BRUCE,

Post Office Inspector.

HANDICAPPED

A Brooklyn colored man was all beaten up and the judge advised him to keep out of bad company. "I ain't, yo honor," replied the man. "I ain't get enough money together to cure a dee-vee."

West Coast Motor Tour

1. The G.P.S.S. Motor Princess. 2. Chequamegon Drive, a link in the Pacific Highway. 3. Dance floor on the ferry.

NOT only have Bellingham, Wash., and Victoria, B.C., been brought into closer connection and more friendly relations by the recent inauguration of a ferry motor transport service by the new Canadian Pacific "Motor Princess", but western tourists as a whole have been provided with a new route to the Capital City of British Columbia, and one that has the alluring charm and refreshing diversion of a three and a half hours' water trip. The new water route for touring motorists from the mainland to Vancouver Island forms the base of a triangle which provides a circuit tour from Victoria through Nanaimo and Vancouver and via the beautiful Pacific Highway through West Westminster and Bellingham to Oregon and Washington destinations. This tour takes one through some of the most beautiful scenery on the continent. Exhilarating sea breezes are enjoyed along the whole route, which is through country the climate of which is so delightfully

equable, that the semi-tropical foliage is pleasing to the eye and fragrant the year round. In addition, the ferry links the wonderful roads on Vancouver Island with the California Bee Line, the western arm of the great 6,000 mile circle tour which embraces twelve national parks in the United States and three in Canada, and of which the Banff-Windermere Highway through the Canadian Rockies, to be officially opened on June 30th, forms one of the most delightful parts. The ship which has made this Mainland-Island-Circle tour possible was specially designed for the service and possesses many distinctive features. She has parking space for 50 automobiles on two decks and accommodation for 250 passengers. A saloon, smoking room, restaurant, dance floor and deck spaces for promenading have been fitted up for the convenience of the travelling public, and the vessel is equipped with twin diesel engines which ensure a speed of 14 knots in all weathers.

Canadian National Parks Offer Unsurpassed Attractions For Great Army Of Tourists

Each year evidences a greater appreciation of the Canadian National Parks both on the part of the Canadian people and visitors from other lands, and each passing season further extols the foresight of the men who have retained for all time these enchanting fastnesses of nature to be the playgrounds of a continent for all time.

Though the final figures are not available for the past year and the annual report uncompleted, it is authoritatively stated that the parks in the 1922 season welcomed as great a volume of visitors as they had ever known at least equally the traffic of the year 1915, which had hitherto stood a record. In that year a total of 166,000 holidaymakers, of whom 75,000 were Canadians, visited the National Parks to revel in their wild beauties. In the year 1921 it is estimated that foreign visitors to the parks left the sum of nearly \$20,000,000 in the country, or almost \$2.25 per capita of Canada's population, and this amount must have been substantially augmented last year.

It is confidently anticipated that this season the traffic to the National Parks, especially those which lie in the western and mountain regions, will be invaded by a yet greater army of tourists. Every year the desire to spend freer, more unconventional holidays, the most striking antithesis of the ordinary day's routine, becomes more pronounced, and greater crowds seek to give expression to this urge. It is coming to be more and more appreciated, too, that nature has satisfied this craving, nowhere is the realm of nature so inviolate, as the Canadian National Parks, where the most rigorous precautions are taken that the beauties of nature shall be preserved unscathed, the elements of its nature be banished as far as possible and these wooded sanctuaries retain their immaculate charm.

The Rocky Mountains Park has for years been the Mecca of the continent's holiday-makers, not only on such a vacation, and it easily leads the list of resorts as a prime favorite for disrupting in nature's haunts where civilization is left not too far behind. In more than one vote taken among tourists who had in the past visited the States National Parks, it was elected as the most attractive and entertaining. In 1915, of the 166,000 tourists at the various Canadian parks, 71,000 were visitors at the gateway to this unrivalled playground.

For the motor traveller who, hold day bent, seeks to penetrate the heart of nature and has learnt to love the rugged, untarnished beauty of the Canadian Rockies, 1923 is, in one respect, a signal year. The last day of June will see the official opening of the Banff-Windermere Road, the last completed section of the Canadian sector of the Grand Circle Tour, which stretches up into Alberta, for 6,000 miles from California and takes in ten National Parks. For years work has progressed strenuously upon it, tearing through pine forests and blasting through mountain strongholds, until now the way lies open to what is undoubtedly the most picturesque motor trip on the continent.

Motorists who pass that way this summer will be real pioneers. The new road is built through the heart of some of the finest scenery in the Rockies, seventy-three miles of it being through virgin mountain and forest country where many of the peaks as yet bear no name. It crosses two mountain passes, the main range of the Rocky Mountains being traversed via the Vail Pass at an altitude of 9,000 feet and laje the Delancey range through the Sinclair pass at an elevation of 4,950 feet. The grades, however, are easy, the average being 3 per cent, and the maximum 9 per cent, which is maintained only for about 400 feet.

Holidaying in this section holds unsurpassed attractions for the motorist camper. Until the International Boundary is reached again he must be prepared to leave the thrills of civilization definitely behind and manage with the little camps which have been situated periodically along the trail in such a way that the primitive aspect is in no way violated. One might write exhaustively of the wonders of this trip, the virgin forests and towering mountains, the Vermilion paint-pots, the radiant hot springs, the rugged beauty of Lake Windermere, and the varied attractions of many districts. Suffice it to say that the month's journey opens up to motorists a new western wonderland and playground which, it may safely be said, is unequalled in the continent and probably in the entire world.

W. N. U. 1477

Profit In Beekeeping

Bees Can Be Kept Profitably in Almost Any Part of Canada

One of the phases of Dominion apiculture which should appeal most keenly at the present time, not only to those already engaged in farming in Canada, but those contemplating Dominion land settlement, is that of apiculture. Not only is Canada producing sufficient honey to satisfy its own domestic demands, but neglecting a great export market, where the reputation for other farm products have already achieved, no less than the proven high quality of her honey, would give her an easy entrée.

There is gratifying evidence at the present time, of a general interest throughout the Dominion in beekeeping, and of a movement towards occupying that position in apiculture which opportunity in the country justifies. A campaign of encouragement has been waged by Dominion and Provincial Government, and these have been attended with satisfactory results, to judge from the increase in the number of apiarists and production of honey. "Bees can be kept profitably almost anywhere in Canada," says the Dominion Apiarist, "and each year the number of apiarists gradually increases. The returns from beekeeping are not dissimilar to those from other businesses, and there is perhaps no other branch of agriculture which yields as high returns for the amount of capital invested."

The most noteworthy increase in interest in beekeeping is probably exhibited by the western provinces, where from a total non-existence it has developed to be a flourishing and profitable industry. In Manitoba, for instance, a new apiculture industry has been built up in only two years, and last year the beekeepers of the province were responsible for about half a million dollars to provincial revenue. This year it is expected that such revenue will be added in the province. Manitoba has now approximately one thousand beekeepers who in 1922 produced about 2,000,000 pounds of honey. What can be done in this province was demonstrated by the members of the Provincial Beekeepers' Association, who secured from six hives a yield of 2,150 pounds of extracted honey, which he sold for 21 cents a pound. Another member reported a crop of 2,470 pounds of honey from three hives, or an average of 353 pounds, and an increase of 18 colonies.

The Saskatchewan Government became so keenly conscious of the failure of its farmers to take advantage of this profitable industry that it instituted a new department in beekeeping, at the University of Saskatchewan. The province of British Columbia last year produced the largest honey crop in its history, over 700,000 pounds, with a value of nearly \$200,000. This year's output had the fine average of 61 pounds per hive from 10,229 hives in 2,072 apiaries. In eleven years this province's output has increased from 20 tons to about 355 tons per year.

The remarkable opportunities existing in Canada for engaging in the pursuit of apiculture, in the established fact that this may be pursued in practically any section of the Dominion, is apparent in a survey of trade figures. Canada's exports of honey in the last fiscal year amounted to 74,707 pounds, worth \$12,850, to which figure it had increased from 33,142 pounds, worth \$7,632, in 1920, and 36,292 pounds, worth \$9,176, in 1921. These exports in the past year went to the extent of \$162 to the United Kingdom, \$12,265 to the United States, \$5 to France, and \$405 to other countries.

Exports of Dairy Products

Canada exported 266,489 lbs. of butter, valued at \$115,848, and 562,400 lbs. of cheese valued at \$140,232 in the month of March. The third month of the year is one of the smallest exporting months. Of the butter exported, much was destined for Bermuda and the West Indies, whereas the cheese nearly went to the United Kingdom. We also exported in the same month 174,286 lbs. of powdered milk valued at \$23,816, and 2,916,400 lbs. of condensed milk, valued at \$200,215. Of the condensed milk shipments, Russia took 110,000 lbs., the United Kingdom 424,500 lbs., the United States 702,400 lbs., Jamaica 165,000 lbs., Mexico 104,800 lbs., the Netherlands 150,200 lbs. and Cuba 122,000 lbs. Some 164,900 lbs. of the powdered milk and 126,400 lbs. of the condensed milk went to Germany.

The more business ability a man possesses the harder it is for him to whistle a popular air correctly.

Aeroplane Rescues Pair From African Jungle

Penetrated Wilderness For Three Hundred and Twenty Miles

After an S.O.S. was flashed out over hundreds of miles of Panama jungle by a dispatch of a native runner more than seventy-five miles to the nearest telegraph station, the United States army aeroplane penetrated the wilderness for 320 miles and rescued Mrs. Helen T. Galge, wife of Prof. Frederick M. Galge, of the University of Michigan, who shot off the index finger of her right hand by an accidental discharge of her double-barrelled gun.

Prof. and Mrs. Galge left America last February with the intention of remaining in the jungle for eighteen months in the study of reptiles. Mrs. Galge is an authority on snakes, lizards and frogs. They had gone hundreds of miles, and were near the border of Costa Rica when Mrs. Galge met with her accident.

Increased Consumption Of Milk

California Uses Milk Extensively In Public Schools

In the movement for the greater consumption of milk and its products, which is going on in many states of the United States, California stands at the head. There is scarcely a city of any size in California that has not some sort of milk service in the public schools. In San Francisco, 10,500 half-pint bottles are purchased by the children at the school lunches every day. In Berkeley every school has similar services. Nutrition classes are also common in the principal cities. Every child in the nutrition classes is required to drink a quart of milk a day. Doctors, dentists and oculists give their services free of charge. In 1922 the people of California consumed 13,500,000 gallons more milk than in any previous year, the per capita consumption increasing from 17 1/2 gallons in 1921 to 22 1/2 gallons in 1922. The consumption of butter increased from 22 lbs. to 22 1/2 lbs. per capita in the same period.

May Demolish Eiffel Tower

The Eiffel Tower of Paris may soon be demolished and the material of which it is constructed used for reconstruction work in the devastated regions. The wireless station at Saint Asaise, near Melun, possesses superior facilities for receiving and transmission compared to the Eiffel Tower.

It may be that fruits feel pain, as that Frenchman says, but the grapefruit is the only one that can hit back.

Possibly Solomon's wisdom was due to his association with his numerous mothers-in-law.

Canada's Rivals In Dairying

New Zealand and Australia Capture Large Share of Trade

The Dominion Dairy Commissioner, Mr. J. A. Riddick, who with Mr. W. A. Wilson, of Regina, Saskatchewan, recently returned from a visit to New Zealand and Australia, states that New Zealand has made great progress in the dairy industry in recent years. Many new factories have been built and many have been reconstructed and modernized. Australia too has made great advances, large factories in New Zealand, being the rule. In New Zealand, the creameries making as much as 800 to 1,000 boxes of butter a day. In New Zealand it is a small cheese factory that does not make 400 or 500 tons in a year. Mr. Riddick is of opinion that Canada will meet much keener competition in the future in the matter of quality and quantity of dairy products from these countries than she has in the past. Relating to these facts it is interesting to note that the amount of butter graded in New Zealand in the month of December, 1922, was 9,768 tons, compared with 6,123 tons in the corresponding month of the previous year. The total for the last five months of 1922 was 25,662 tons against 24,945 tons in the same period of 1921.

Time Englishman Had Chance

Stanley Baldwin First One Since Salisbury to Become Premier

"For He's an Englishman" is the song that should greet the incoming Premier of Great Britain.

England has served a long sentence of exclusion from the Premiership of the United Kingdom of Great Britain and Ulster. Salisbury was the last Englishman to serve in the Premiership unless H. H. Asquith, the representative of a Scottish constituency, be recognized as an Englishman; Rosebery, Campbell-Bannerman, Lloyd George, the Welshman, and Bonar Law, the Scottish New Brunswicker. It is time an Englishman had a chance, Stanley Baldwin represents an English constituency and many of the highest and noblest qualities of English character.—Toronto Telegram.

Trces For Saskatoon

Trees to the number of 10,000 were distributed among Saskatoon school children by the Parks' Officials and Dominion Forestry Branch on the occasion of Arbor Day. Each child received one maple and one ash. Last year only 5,000 trees were distributed.

No man can get a woman's meaning unless he can understand the language of her eyes.

Canada's Railway Progress An Outstanding Feature In Development Of Dominion

Poultry Marketing Co-operation

Elements That Are Necessary If Successful To Be Achieved

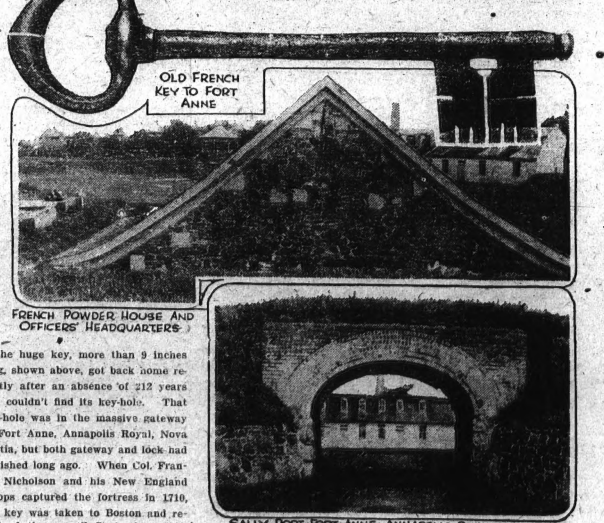

While the title of a bulletin just issued by the Dominion Livestock Branch, "Co-operation in Marketing Poultry Products," would indicate that its contents were of interest to those engaged with poultry business, nevertheless the majority of the principles laid down are applicable to any form of agricultural co-operation. The writer, Mr. A. Benson, District Poultry Promoter for Ontario, hits a vital point when he says that while there is evidently an earnest desire on the part of producers to improve existing marketing conditions, there appears to be a lack of uniformity of thought and ideas as to methods of procedure, and the limits of the field in which co-operating producers can hope to achieve the greatest and most permanent success. It is evidently with a view to help in remedying this condition of affairs that the bulletin has been written and published. Not alone are the fundamental essentials to success and the principle of co-operation laid down, but details are given relative to organization, to the loyalty and confidence that must prevail, to the methods of management that must be adopted and maintained if success is to be achieved, to warehouse methods, to marketing, to grading and standardizing of eggs, to pooling, to financing, to the survey that should be taken of conditions and territory to be controlled prior to organization, to the cost of contract that should be made between members, and to the attitude of producers; the whole concluding with the rules of a suggested market agreement for local units.

Leads In Child Welfare

In a recent address before the New York Robertson Club, Dr. James W. Robertson, of Ottawa, Chairman of the Executive of the Canadian Red Cross Society and Chief Commissioner of the Boy Scouts Association of Canada, declared that in the past four years Canada had made more real progress than any other nation along the lines of child welfare. Six Canadian universities are giving courses to women to fit them for work in saving the lives of babies, he said.

A simple way to pouch an egg is to turn it into a teacup in which a piece of butter has been placed. Put the cup in a small pan of boiling water, and the egg will be ready to take up in five minutes.

KEY OF OLD FORT ANNE, AT ANNAPOLIS ROYAL BACK HOME AFTER MORE THAN TWO CENTURIES

The huge key, more than 9 inches long, shown above, got back home recently after an absence of 212 years and couldn't find its key-hole. That key-hole was in the massive gateway to Fort Anne, Annapolis Royal, Nova Scotia, but both gateway and lock had vanished long ago. When Col. Francis Nicholson and his New England troops captured the fortress in 1710, the key was taken to Boston and remained there until September, 1922, when it was returned to Fort Anne by the Massachusetts Historical Society. In accepting the key, L. M. Fortier, Honorary Superintendent of Fort Anne, now a National Park, regretted that, while the society was taking such good care of it, "our fathers let the gateway and the gate to which this key belonged, go to pieces and utterly disappear so that we only know of their existence and location by the old plans, tracings of which are in our museum."

The remainder of old Fort Anne, however, is well preserved, and each year thousands of tourists visit it, walk along its grass-grown ramparts, inspect the French powder magazine, pass through the quaint salt-petre and view the interesting relics in the museum which was built as officers' quarters by Queen Victoria's father, the Duke of Kent. The fort covers 31 acres, overlooks beautiful Annapolis Basin and is exceedingly picturesque. Sieur de Monte and Sanguet de Champlain discovered and founded Fort Royal (now Annapolis Royal) in 1604, four years before Quebec was settled. The first fort was built in 1638 and the present one between 1688 and 1710. It was the armed outpost of Acadia and defender of Evangeline's people, and was be-

sieged thirteen times. Annapolis Royal, easily reached from Boston and St. John, N.B., is one of many picturesque places in Nova Scotia. Near by is Grand Pre, made famous by Longfellow, from which Evangeline and her Acadian neighbors were expelled in 1755. The site of her home is a park from which Evangeline in bronze seems to scan the Basin of Minas in unending quest of her lost lover, Gabriel. There are good hotels at Digby and Kentville, and the Liverpool chain of lakes and Lake Kennebecque are favorite resorts for lovers of canoeing, camping, fishing and hunting.

Saves Trip to Paris

Two young New York girls are putting on a fashion show that costs \$250 for each ticket of admission. It is held for those who deal in ladies' frocks. The originators of the idea go to Paris in advance of the season and bring back the latest creations. Each holder of a ticket is permitted to copy five styles. The price of admission is considered cheap because it saves the cost of sending designers to Paris.—New York Correspondent.

Crop Prospects Good

There is every indication that Western Canada will reap a bountiful crop this year. Not at any time in the past five years have prospects looked quite so promising. There appears to be abundance of moisture, and the farmers and business men are feeling much better regarding the prospects.

Diner—"Look here, waiter, I've found several pieces of straw in this pie."

Waiter—"That's right, sir, cottage pie—evidently thatched."

Blairmore Lodge, No. 88, meets every Tuesday night at 8 p.m. in the Oddfellows' hall. Officers for the ensuing term: J. B. Harmer, N.G.; M. B. Hoffman, V.G.; Fred Goulding, R.S.; H. C. James, P.S.; J. Montalbetti, Treas.

Crow's Nest Encampment No. 88, meets on the second and fourth Wednesdays of the month in the I.O.O.F. hall at 8 p.m. Officers for ensuing term: W. Patterson, C.P.; James Crowder, S.W.; E. Oliver, R.S. and P.S.; Jos. Montalbetti, Treas.

Crowley Rebekah Lodge, No. 66, meets the first and third Thursdays of the month at 8 p.m. Officers: Sister Archer, N.G.; Sister Evans, V.G.; Sister D. James, R.S.; Sister Hood, P.S.; Sister N. Evans, Treasurer.

Bellevue Lodge No. 118, meets every Monday night at 8 p.m. Officers: H. Harrison, N.G.; E. Fisher, V.G.; Jos. Shevels, Sec. P. Padgett, Treas.

Armistice Encampment No. 17, Bellevue, meets the first and third Wednesdays of the month. Officers: Sister D. James, N.G.; Stephen Berry, H. P.; Harry Jepson, S.W.; Fred Padgett, J.W.; E. E. Coffin, Treasurer; Charles W. Bay, Sec. Box 6.

Ray of Hope Rebekah Lodge No. 47, meets the first and third Wednesdays of the month. Officers: Sister D. James, N.G.; Sister Lathlain, V.G.; Sister Beal, R.S.; Sister Christie, P.S.; Sister Pattinson, Treasurer.

Visitors of the Order are cordially invited to attend the above lodges.

GORDON WEIR COMING

Radio fans throughout the province will be delighted to hear that a musical treat has been arranged by the Calgary Herald Radio Broadcasting Station CPAC for the evening of Saturday, June 23rd, from 9.30 to 10.30, to be given by Western Canada's premier concert baritone, Gordon Weir.

The following program has been arranged to be broadcast:

"Liebestreume," Liezt, Mr. Ewart Porterfield.

Grainger Group, arrangements by Percy Grainger: a. "Country Gardens," b. "Shepherd's Hey," c. "Molly on the Shore," Mr. Porterfield.

"Harlequin," Sanderson. "I Passed By Your Window," Brane. "Tommy Lad," Margaretson. Gordon Weir.

"Wedding Day at Troldhaugen," Grieg. Mr. Porterfield.

"On the Road to Mandalay," Speaks. Gordon Weir.

Mr. Gordon Weir is making a farewell tour of Alberta, before leaving for New York, and those who do not hear this program over the radio will have the opportunity a little later on of hearing Gordon Weir and Company in Blairmore.

This talented young musician needs no introduction to Alberta audiences, as he has enjoyed the distinction of being the leading baritone of Western Canada for some time. Musical critics unanimously agree that Mr. Weir's rich voice will carry him to the very top of his profession and his call to New York is a step in that direction.

Every person who can possibly do so should make it a point to attend this performance, outranking by far anything that has ever been presented here before.

The marriage of Miss Linnette Seiber, of the Greenhill hotel, to Mr. Mercer, of the Riverside Ironworks staff, was solemnized last night. We understand the young couple will make their home in Blairmore.

Golf News

A match between teams representing Pincher Creek and Blairmore golf clubs was played on the Blairmore golf course during the week end and resulted in a win for Blairmore by 10 points to 6. Following are the results:

D. G. Mackenzie 1; J. P. Alexander 0.

J. B. Wilson 1; Dr. G. A. Dubuc 0.

G. L. Stevens 0; Ross Powell 1.

L. P. Robert 0; E. A. Stringer 0.

A. J. Kelly 1; W. C. Hardy 0.

J. H. Farmer 1; G. D. Plunkett 0.

E. Whiteside 1; J. Whittaker 0.

Blairmore 8; Pincher Creek 3.

D. G. Mackenzie and J. B. Wilson 1; J. P. Alexander and Dr. Dubuc 0.

G. L. Stevens and W. Turner 0; R. Powell and G. Smith 0.

L. P. Robert and A. J. Kelly 0; E. A. Stringer and W. Hardy 1.

J. H. Farmer and W. W. Scott 0; G. Plunkett and R. Powell 1.

M. G. Rhynas and W. Bird 0; J. P. Gregory and G. Tucker 1.

J. Crowder and E. Whiteside 1; J. Whittaker and G. Wilton 0.

Totals — Blairmore 10; Pincher Creek 6.

A mixed foursome was played on Wednesday, the 20th, when 32 players took part. Following are the results:

Mrs. D. G. Mackenzie and W. Goddard 47-8-29.

Mrs. J. H. Farmer and W. Bird 46-3-43.

Miss Marquis and M. H. Congdon 56-11-45.

Mrs. F. M. Pinkney and M. G. Rhynas 61-9-52.

Mrs. J. R. Smith and G. N. Elwin 68-5-63.

Mrs. H. Burns and J. B. Wilson 58-6-53.

Mrs. E. Whiteside and A. J. Kelly 62-9-53.

Mrs. M. H. Congdon and G. Cruickshank 64-11-58.

Mrs. W. Turner and E. Harper 63-9-54.

Mrs. G. H. Thompson and V. Newhall 60-5-55.

Mrs. H. M. Bennett and J. H. Farmer 61-5-56.

Mrs. J. E. Gillis and C. Emmerson 69-9-60.

Mrs. W. Bird and W. Neale 62-0-62.

Mrs. R. Green and J. E. Gillis 71-9-62.

The Ladies' monthly competition, postponed to Saturday, June 9th, was won by Mrs. Farmer.

Members please note that the regular competitions are played on the third Wednesday of each month.

A tombstone competition was played Saturday, the 16th. A handsome cup, presented by Mrs. Pinkney, was won by Miss Marquis. Mrs. Pinkney was hostess at a most successful tea following the round.

MRS. PARIS SUES ELMO

E. TRIDDER FOR \$36,507

Suit for \$36,507 has been instituted against Elmo Edgar Tridder, of Calgary, recently freed by a jury on a charge of murdering Const. Charles N. Paris, of the Drumheller Town Police, by Beryl Louise Paris, wife of the dead police officer, suing on behalf of herself and infant son, Charles Oliver, according to a statement of claim filed in the Supreme Clerk's office, Calgary, Wednesday last.

L. G. Caseville is acting as counsel for the plaintiff in the civil action.

The action will be placed ahead on the court list, it was stated, but the date of hearing is uncertain owing to the forthcoming vacation. It may not be until fall.

In the opening game of the schedule, the Bellevue senior baseball team were defeated by Coleman on Friday evening last by a score of 8 to 5.

LIQUOR POLICY AND TROUBLE

(H. W. C. Jackson, in Spokesman-Review.)

To the Editor of The Spokesman-Review: The statement of David Lawrence that foreign nations have failed to base on international law (necessarily uncodified and always somewhat vague by reason of their hitherto having been no world court to construe it), their protests against the recent decision of the United States supreme court, or rather the regulations of the treasury department thereunder, prohibiting the inclusion of spirituous liquors in the "ship's stores" of foreign vessels entering American ports, but have preferred to base their case on the broader grounds of comity of nations, can hardly be claimed to have disproved my assertion that the decision in question was in violation of international law as now understood and accepted. That particular question will, however, be definitely settled before this controversy is over, unless the United States should dodge the issue it has itself raised by reversing its announced position and policy out of alleged deference to the comity of nations.

I admit that the comity of nations was equally in my mind with my conception of international law when I penned my protest against The Spokesman-Review's editorial comments on this subject, but I then confined my argument to the matter of international law as that seemed to me to be the basic question. I should now like to supplement my previous letter by setting forth some thoughts, excluded from it for the sake of brevity and because they dealt almost solely with the phase known as the comity of nations.

The United States is not the only dry nation in the world. There were others long before this continent was discovered. In some of them "prohibition" has all the added authority of a religious dogma. Yet none of these countries has seen fit to attempt to impose its ideas in this respect on foreign shipping while in its ports. Is there any good reason for doing it now?

Some of these countries, with populations vastly in excess of that of the United States, have equally strong prejudices and prohibitions against the use of pork or even beef as food. Pork products constitute at least as important an item in the export trade of this country as do spirituous liquors in the export trade of any other country of which I can think.

This being the case, should the United States arrogate to itself the right to prohibit the inclusion of liquor in ship's stores (not cargoes), why should not states such as Turkey prohibit the inclusion of pork products in the "ship's stores" of foreign vessels entering its ports? Such action would be just as lawful (?) and logical and no more intolerant than the proposed action of this country with respect to liquors.

I maintain most stoutly that such action on the part of any state would involve a radical amendment of existing international law, but if that is what the United States wants it is probable that the nations could adjust themselves to the change, should the new principle eventually find general acceptance. I ask you if such a change of international law is really desired by the people of this country? How would it react on the comity of nations if made?

I assert without fear of contradiction that the arbitrary position of this country with regard to "ship's stores" opens endless possibilities for complications that nations have hitherto wisely avoided and that those complications would result necessarily in international bickerings that might easily lead, as in the past, to quarrels and even to war.

The quickest and best way out of the difficulty in which the decision of the supreme court has needlessly involved this country, without reference of the whole matter to the now world court instituted by the league of nations, would be for the supreme court to order a rehearing or argument of the issue and then to modify its decision in accordance with international law as hitherto understood.

The comity of nations did not avail much during the World war.

A fifteen-pound trout, sent to Calgary from Waterton Lakes by Superintendent Devan, has been on exhibition in Alex. Martin's window.

The government road gang, working under the supervision of Engineer Homer Keith, moved to Coleman on Tuesday and are now grading sections of the road between Coleman and Blairmore. The road east of here is now in a passable condition, but not by any means up to Hoyle.

ROASTED COFFEE For particular people

All the qualities of superfine coffee—roasted to a turn, crushed to small, clean grains—every can perfect coffee.

Canada And Its Immigrants

The tide of immigration to Canada is rising. It will continue to rise in response to the desire of people in the British Isles and on the continent of Europe to emigrate to a land where they can find those opportunities for self-advancement for themselves and children, particularly those children, which are at present denied to them, and also in response to the increasing recognition by the people of Canada that one of the Dominion's paramount needs is increased population, which recognition is slowly but surely finding acceptance in the adoption of a more up-to-date and vigorous policy of immigration by the Ottawa Government. A further incentive to increased immigration is found in the policy of the British Government encouraging and promoting immigration to the overseas Dominions of the Empire.

It is not sufficient for Canada and its future merely to receive thousands of new settlers. These people of diverse races and tongues must not only be received but made welcome; they must for their own future good and Canada's welfare and national stability and progress be assimilated as rapidly and completely as possible into a real and permanent Canadian citizenship. In the past, unfortunately, such assimilation in the minds of many good Canadians has been conceived in a very narrow way. It has meant little more than the abandonment by new comers of their native tongue, customs, and native dress and the adoption of the English language, Canadian dress and customs. While the adoption of the language, customs, dress and manner of Canada is desirable and, in their own interests, necessary for all immigrants, it is not necessary, nor possibly even desirable, that they should wholly abandon and seek to forget the language and traditions of the lands from which they come.

It is of the first importance, however, that all people of foreign extraction should be made heartily welcome in Canada by our Anglo-Saxons. It is our duty to understand these newcomers. Particularly, we must abandon the attitude of viewing them with suspicion, even disgust. They are not Bohunks, nor dirty Galicians, nor narrow, bigoted Mennonites; they are people; they are human, with spiritual and intellectual capacities. Many of the very habits and characteristics to which Anglo-Saxons sometimes so strenuously object are the outcome of deep religious convictions—something no man should despise—or the result of centuries of inherited ideas which cannot be uprooted in a few years. Even if such uprooting was possible there would be grave danger of something less desirable and more dangerous taking the place of lost convictions and ideals.

These diverse peoples have a distinct contribution to make to the Canada of the future that is now in the making, a contribution quite apart from the visible, practical and economic one of tilling the soil, raising cattle, building railways, roads, of being harvesters of wood and drawers of water for Canada. They bring to this new country habits of thrift and a willingness to work, and work hard even to the extent of downright drudgery, which most Anglo-Saxons have yet to learn. These people are real pioneers. They have not despised the land covered with bush to be cleared; no distance to market has been too great for them to travel; no stones too heavy to lift. They live frugally, clear their own land, haul their crops to distant market towns in zero weather. In a word, they are nation builders. They are not living for pleasure, but for future generations, and where you see their pioneer shacks, you also see lots of children.

These people, too, bring with them a burning love of liberty. They know from centuries of bitter experience what tyranny and oppression mean. They understand the horror of war. True, there is danger they may misinterpret Canadian liberty for licence, but it is for the Anglo-Saxon to endeavor to understand and sympathetically teach and direct.

The Scandinavians bring to us the sturdy hardiness and rugged upstanding characters developed about the fjords in the land of the midnight sun, men of the type of Stellanor, the Arctic explorer, who is doing so much for the Canada of the future. The Polish people bring from the land of Father-ewski an inborn love of music. Czech-Slovakia sends us men and women thrilled with the inspiration derived from Huss and other national patriots. The Hungarian is still influenced by their great hero Kosuth.

These people bring a new strain into our Canadian life. They have a real love for the land; they love the smell of the rich soil; they love the beauty of the plowed fields; they enjoy the sun in the fields. They love Canada things we lack. We have invited them to come; we need their contribution to the upbuilding of our Dominion. Let us, therefore, welcome them, strive mightily to understand them, encourage and assist them, have patience with them, because time will work wonders, and above all, let us not look down upon them because their ways are not altogether our ways. We owe them something, and it will be repaid in full measure if we exercise a reasonable patience and understanding, Canadian neighborliness and Christian charity.

Contribution Of Canada

While Canada has only about one-half of one per cent. of the world's population she produces: 30 per cent. of its coal, 58 per cent. of its wheat, 85 per cent. of its flax, 32 per cent. of its pulpwood, 20 per cent. of its lumber, 20 per cent. of its cured fish, 15 per cent. of its oats, 15 per cent. of its potatoes, 12 per cent. of its silver, 11 1/2 per cent. of its wheat, 11 per cent. of its barley, 4 per cent. of its gold, 4 per cent. of its copper.

Fate is what a man calls it when he gets into trouble for doing what he shouldn't do.

Discuss Lady Astor's Bill

Prime Minister Stanley Baldwin announced in the British House of Commons that the Government is ready to grant facilities to Lady Astor's bill providing for prohibition of the sale of intoxicants to persons under eighteen years of age.

A traveller says he passed a field in Europe where a woman was sowing with an axe. It happens over here, also, but she sometimes leaves him.

A selfish individual who lives for himself alone is usually the only person in the world to mourn his demise.

"I Had Billious Attacks and Stomach Weakness"

Mrs. Wm. Robinson, Yorker, Sask., writes: "I suffered from stomach and liver trouble, and used to have bilious attacks so bad that I could do nothing for weeks at a time. My stomach would be so weak that not even a drink of water would stay on it. On my sister's advice, I began to use Dr. Chase's Kidney-Liver Pills, and must say that they have made me feel like a new woman."

DR. CHASE'S KIDNEY-LIVER PILLS

One pill a dose, 25 Cents a box, all Dealers, or Edmondson, Telos & Co., Ltd., Toronto.

Canada's Exports

Great Increase Shown In All Products During Year

Canada's automobile exports in 1940 were but \$400,000, and in 1939 they were \$6,000,000. Pulp and paper exports jumped from \$51,000,000 in 1933 to \$9,000,000 in 1939; the rubber exports increased from \$225,000 in 1930 to \$4,000,000 in 1939; textiles increased from \$63,434 in 1930 to \$27,616 in 1939. Chemical exports increased in value in the same period to \$9,250,000. Manufacturing exports have rapidly climbed until they represent 64 per cent. of the export trade of Canada in the last year.

Excellent Source of Revenue

Charitable Organizations Can Make Money Collecting Old Newspapers

Old newspapers from which the ink has been removed by processes lately discovered make a good grade of book paper. In recent months manufacturers have paid as much as thirty dollars a ton for them, and they say that the supply is inadequate. Charities that organize to collect old newspapers find they have an excellent source of revenue. A. Incidentally they help the cause of forestry. It is said that six tons of waste paper saves an acre of forest.

Mothers' Best Friend In Rearing Children

Pain and sudden sickness are apt to come upon us at any time and safety lies in having always handy on the shelf a reliable pain reliever like good old "Nervine." For nearly half a century Nervine has been a family standard. Mothers have come to rely upon it in case of colds, fever, throat, chest, stomach, cramps, nausea and sudden attacks of sickness in the infant. Port is a potent external use. Nervine is worth its weight in gold to every home, and costs but 35 cents a dozen.

Railway May Push North

Says Canadian Pacific Anxious to Extend In Northern Alberta and B.C.

A special to the Vancouver Province from Victoria, says in part: "A well authenticated report has it that the Canadian Pacific Railway is reaching out for further business in Central and Northern British Columbia. It is understood Major Cradock, of Vancouver, will conduct a survey for a railroad purpose in the interests of the Canadian Pacific Railway from Spirit River, Alta., to the inter-provincial boundary at Pouce Coupe and across to Pine Pass in British Columbia.

"It is believed the Canadian Pacific Railway has eyes on the Pacific Great Eastern, although unwilling to pay much for the property. At the present the Pacific Great Eastern has been surveyed north from Prince George through Pine Pass to Pouce Coupe, but the provincial government has no intention of completing the line."

Canada Gives Buffaloes To New Zealand City

Auckland is Making Collection of Wild Animals of World

The city of Auckland, New Zealand, has set aside 170 acres of land for zoological gardens, and the mayor of that city has written to the Canadian Department of the Interior to ask for the gift of three buffaloes to add to the nucleus of a collection of the wild animals of the world. It has been possible to accede to this request, and arrangements are being made for the transfer of three buffaloes, one male and two females, to the city of Auckland.

The man who is looking for soft snags is likely to get many a hard jolt.

No Rest With Asthma. Asthma usually attacks at night. The one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merits through years of service. A trial will surely convince you.

Saskatchewan Honey

Estimated that Twelve Tons Were Produced Last Year

A substantial increase in the production of honey in Saskatchewan is anticipated this year, according to officials of the Department of Agriculture. At present there are nearly 100 beekeepers in Saskatchewan. Fourteen of them produced a total of \$633 pounds of honey last year, an average yield of 688 pounds for each apiarist. The remaining apiarists yielded an average of about 800 pounds each, and it is estimated the 1941 production of honey in Saskatchewan was approximately 12 tons.

A lump of sugar helps to preserve cream in hot weather.

Minard's Liniment relieves Burns, etc.

Healthy Liver Healthy Life

Your liver—healthy or clogged, active or sluggish—makes all the difference between a vigorous, cheerful life and one of languor, aches and pains, indigestion, constipation, dizziness, biliousness, headache and the blues there is nothing on earth so good as Carter's Little Liver Pills. Purely vegetable. Small Pill—Small Dose—Small Price

Less Crime In England

Statistics Show Big Decrease In Last Ten Years

Less drunkenness, more burglars arrested, a big drop in minor cases, suicides, 35 double tragedies, and British prisons not so full, are some of the outstanding features of the crime statistics for 1931, which have just been made public.

During 1931 cases of drunkenness declined 81,383 against 96,000 in 1920 and 204,035 in 1913. Offences of violence declined to 966 in 1931 from 1,107 in the previous year. The decrease in the number of cases for offences of a less serious character, says the report, confirm the impression that poverty and distress were potent influences in determining the number of crimes and offences during the year.

Prison returns show the number of convicted prisoners received during 1931 totalled 46,871 against 166,283 in 1913.

Polish Exports to Germany

Food, Coal and Timber Supplied In Large Quantities

Notwithstanding the strained relations between Poland and Germany, Polish goods exported to that country form no less than 48 per cent. of the total exports. Exports to Germany consist mostly of articles of food, coal and timber. German imports into Poland form 15.6 per cent. of the total Polish imports.

The figure is really considerably higher, as many German goods are entering Poland by way of Austria and Czechoslovakia. German exports to Poland consist for the most part of machinery.

HUSBAND DIDN'T DARE LEAVE HER ALONE HEART WAS SO BAD

Those feelings of faintness, those dizzy spells, the agonizing sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

MILBURN'S HEART AND NERVE PILLS

Have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system.

Mrs. C. Vanhorn, Eekville, Alta., writes: "About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away. It would sometimes be an hour before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued to take them, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

Price 50c a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Ship 1,165 Cattle

One of the largest single shipments of Canadian cattle that has ever left Canada was carried by the steamer Irishman which sailed recently for Birkenhead. The shipment consisted of 1,165 head of store cattle, most of them from Ontario with weight of 1,100 pounds each.

It is not generally known that wringing out a cloth in hot water and wiping the furniture before putting on furniture cream will result in a very high polish that will not finger-mark.

Since the declining months of 1922 the volume of savings in Canadian chartered banks has been rising and at the end of March, 1923, the total savings deposits amounted to \$2,519,295,721, or nearly \$140 for every man, woman and child in the Dominion.

Discovery Of Stainless Steel

Inventor Get Idea Staying Effect Of Explosions on Gun Barrels

The inventor of stainless steel, which has created such a revolution in the last few years, is a native of Sheffield, Mr. Harry Brearley, who got on the track of it while studying the effect of explosions on gun barrels and the inner tubes of large guns. He then produced an erosion-resisting steel, which, under the name of stainless steel has since been used for making cutlery.

Numerous articles, including tools, are now manufactured from the material. A unique example was an enormous axe, presented to Sir Eric Geddes last year.

One of the latest developments in the application of the principles embodied in stainless steel is stainless iron, which is already making its way in every civilized country.

Both products have numerous uses, and enter into motor cars, ships, and so on, as well as the equipment of collieries, engineering and other works. It is anticipated, too, that they will become more and more important factors in iron and steel usage everywhere.

In the cutlery branch of the trade, as every housewife knows, it holds today the premier place. Yet the inventor had hard work in getting blades manufactured from it.

Two well-known English cutlery houses would not take it upon the ground that, it was too difficult to forge and grind, and a third, though agreed to make some trials, thought that failure was inevitable. The manager of this firm declared that a blade which would not stain or rust was an impossibility.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers if your children do not sleep well, if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets act on the bowels, regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthy sleep. They are absolutely guaranteed free from opiates and may be given to the newborn babe with perfect safety. They are sold by medicine dealers, or by mail at 25 cents a box, or by Dr. Williams' Medicine Co., Brockville, Ont.

Long Aeroplane Trip

British Pilots Are Now Planning Around the World Flight

An aeroplane flight around the world by a British machine, manned by British pilots under the auspices of the Legion of Frontiersmen is the project unfolded by Captain Harwood Steele, of the Legion, in Montreal in connection with the proposed flight.

Captain Steele said that it was planned for the world encircling flight to start from England some time next year with a powerful seaplane of British make. The route as at present mapped, will take across France to the Mediterranean, Egypt, India, thence across Asia to Kamchatka, the Aleutian Islands, and across the Bering Sea to Alaska, down to Vancouver. The flight will continue across Canada with stops at such points as Calgary, Winnipeg, Port Arthur, Toronto, Montreal, Quebec and Halifax.

For the final lap of the flight the machine will proceed to Newfoundland, thence to Iceland, the Orkney Islands and on north to the Arctic port of England. The seaplane will be flown by Captain Norman Macmillan, M.C., A.F.C., and Captain G. F. Mallins, O.B.E.

The ex-Kaiser still has dealings with German tradespeople. He has just placed an order with some Berlin jewellers for a gold cigarette box, a gold stick, perched on the side of the box being its neck and picks out a cigarette.

A safe and sure medicine for a child troubled with worms is Mother Gravel's Worm Expeller.

Production of Chemicals

During the year 1922 the value of Canada's production of chemicals and allied products amounted to over \$10,000,000 of which some \$25,000,000 worth were exported. Labor statistics covering the same period show that employment in the chemical industries increased by 5 per cent, while the general tendency of chemical production has been toward increased production and stabilization.

Savings Are Increasing

Since the declining months of 1922 the volume of savings in Canadian chartered banks has been rising and at the end of March, 1923, the total savings deposits amounted to \$2,519,295,721, or nearly \$140 for every man, woman and child in the Dominion.

Minard's Liniment for sale everywhere

WONDERS HOW SHE EVER ENDURED IT

Mrs. Connor Declares Stomach Trouble Was So Bad She Could Hardly Eat At All

"If I hadn't gotten Tanlac when I told I believe I would have had to go to a hospital," declared Mrs. Wm. Connor, 126 Hess St., Hamilton, Ont., recently.

"My stomach was so disordered that everything I ate made me deathly sick, and caused pains in the pit of my stomach that nearly drove me distracted. Often the agony was so great I couldn't help crying, and for two or three days at a time I wouldn't eat a morsel of food. I was as nervous as a witch, miserable for the want of sleep, and often wonder now how I lasted through it all."

"The splendid results my husband got from Tanlac about a year ago caused me to try it, and the treatment ended my suffering in a few weeks time, and gave me a new lease on health. I don't believe there's a healthier woman in Hamilton than I am now, and I can't praise Tanlac enough."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are nature's own remedy for constipation. For sale everywhere.

Artificial Diamonds

Process Devised By English Chemist Long and Costly

By mixing paraffin spirit, bone oil distillate, and metallic lithium in a powerful cast-iron tube, and heating the compound in a reverberatory furnace, an English chemist has obtained artificial diamonds identical in composition with the original gem as dug from the mines. But the process is long and costly, while the diamonds resulting are so tiny that mine stones of the same size can be bought for a quarter of the money.

Elevators In West

Elevator companies in Western Canada are constructing 200 or more country elevators this year at a cost of several millions, and at the head of the lakes \$4,000,000 will be spent in new terminal elevators and in enlargement of old ones.

There's nothing like the knife of candor for severing the bonds of friendship.

PILES

Do not get impatient with itching, burning, soreness, or bleeding. Use Dr. Chase's Piles. No surgical operation required.

Dr. Chase's Ointment will relieve you of all sorts of itching, burning, sore, or bleeding. Sample Box free if you mention this paper and enclose 25 stamps for postage.

KENDALL'S SPRAIN TREATMENT

Talk Of Secession All Nonsense Says Speaker In Senate

Ottawa.—In the Senate, Senator W. H. Bennett continued the discussion on the investigation into shipping on the Great Lakes. He said that the conditions of the western farmers were deplorable and that there was a monopoly of grain dealers in Winnipeg who had taken the last possible cent from them.

Another crowd of plunderers and harpies, were in the Great Lakes shipping combine. In 1932 the action of the shipping combine was "criminal." The Government had vessels on the Great Lakes and could have broken the combine, but tied up the vessels, and had failed to abrogate the coasting laws until it was too late to benefit the farmers.

Senator Gillies, of Whitehead, Sask., said that secession talk in the west was all nonsense, as there were no more loyal Canadians than those of the prairie.

Edmonton Girls Win Championship
Edmonton.—Edmonton Commercial Graduates, ladies basketball team of Canada, annexed a world's championship when for a second time they defeated the Cleveland, Ohio, Favorite Knits, who up to the present had held the world's title. The score was 19 to 13 for the Edmonton team, making the total score for the season 53 to 35. The game was witnessed by over 3,000 spectators, who jammed the arena stadium to its greatest capacity.

Widow Sues For \$36,007
Calgary.—Suit for \$36,007 has been instituted against Elmo Edgar Trider, of Calgary, recently freed by a jury on a charge of murdering Constable Charles N. Paris, of the Drumheller town police.

Beryl Louise Paris, wife of the dead police officer, is suing on behalf of herself and her infant son, Charles Oliver, according to a statement of claim filed in the Supreme Court clerk's office.

Mention Hon. Frank Oliver for Senate
Ottawa.—Hon. Frank Oliver, former Minister of the Interior, is being boomed by many of his political friends and others for appointment to the Alberta senatorship vacant through the death of the late Senator Amede E. Forget. Mr. Oliver has been out of public life since 1917, when he was defeated by General Giesbach, who meanwhile has been appointed to the Senate.

Chinese President Resigns
London.—Chinese President Li Yuan Heng of China, has resigned and turned over to his captors at Tien Tsin the Government seals which he took with him in his flight from Peking, says a dispatch to the Evening News from Hsiao Tsin correspondent.

Vancouver Is Growing
Vancouver, B.C.—The population of Greater Vancouver is 226,524 persons, according to the annual publication of a local directory company. This is an increase of 12,771 in the year.

Friendly Termination Of The Dispute Between Britain And Russia

London.—A brief note from the British Government delivered to M. Krasin, the Russian Soviet representative, brings to an end the long correspondence beginning with Lord Curzon's ultimatum, and terminates the dispute between Great Britain and Russia, which at one time seriously threatened a rupture of the trade agreement between the two countries.

That this has been avoided is considered as largely due to M. Krasin's eloquent tact. That the British Government now considers the incident closed is seen in the fact that it issued to Parliament an official record of the whole correspondence.

Russia yielded on many points, including withdrawal of the offensive Weinstein notes, granting compensation to the seized travelers, in the

Prince Of Wales May Visit Canada Again

Report Says He Will Tour All British
Dominions

New York.—The Prince of Wales may tour the British Dominions in a campaign to arouse interest in next year's British Empire Exposition. It was said by W. C. Crawford, President of Thirty Club of London, who addressed the New York Advertising Club. He said the Prince was making daily speeches before trade groups in the interest of the exposition. This time, if the Prince comes, his visit to the Dominions will be for the purpose of boosting the trade exposition, unlike his other tours of the last three years, when his missions were social and political. Canada will be the first of the Dominions which His Royal Highness will visit, it is stated.

Trade With Australia

Commonwealth May Accept Canada's
Offer of Reciprocity

Ottawa.—Australia is about to accept the Canadian offer of reciprocity. The Minister of Trade and Commerce, Hon. J. A. Robb, was officially advised by cable that at the opening of the Australian Parliament the speech from the throne foreshadowed legislation accepting the Canadian offer.

Alberta May Be Represented

Consider Having Counsel At Grain
Trade Probe

Edmonton, Alta.—Counsel to represent the province at the sitting of the grain commission, which is scheduled for Edmonton on June 25, may be appointed by the government. The commission is desirous that such an appointment be made, and Attorney-General Brewster says that he is now considering the matter.

If it is decided to have such representation at the hearing, it is likely that some official of his department will be deputized for the purpose, and there is even possibility that Mr. Brewster himself will undertake the mission if his other arrangements will permit.

Saskatchewan Wheat For Argentina

Ottawa.—A shipment of 500 bushels of Canadian registered Marquis wheat, produced by members of the Canadian Seed Growers' Association in Saskatchewan, is being made to Buenos Aires, for sowing in Argentina. P. Stewart, Secretary of the Association, expressed the opinion that the performance of this seed in Argentina will lead to increased purchases from Canada.

Harding and Davison cases, and permitting fishing rights within the 12-mile limit. On the question of Soviet propaganda, a compromise has been reached.

The wording of the note shows that Russia had agreed, "in the normal course of diplomatic movements," to the transfer from Kabul, Afghanistan, to another point, of M. Rasoklikov, against whom, according to the note, "the main charges have been made," and to insure that M. Shamsky, at Tehran, shall observe the propaganda agreement in letter and spirit.

The note further gives the important undertaking that Great Britain and her dominions, colonies and protectorates shall not assist in any hostile designs against the Soviet Government or the republics associated with it which may be entertained by Russian emigres.

Organize Union of Churches

New Church May Have a Total
Membership of 2,000,000

Toronto.—The organic union of the Presbyterian, Methodist and Congregational Churches under the proposal adopted by the Presbyterian General Assembly, will create a very powerful ecclesiastical organization from a numerical standpoint. The census of 1921 gives the numbers of persons belonging to the churches which will come under the union plan as follows: Methodists, 1,158,744; Presbyterians, 1,085,512; Congregational, 30,574; total, 2,274,830, or 29.5% of the population of Canada. Allowance must, of course, be made for the possibility of dissentients breaking away and forming another church.

The leading Christian denomination outside of the union are Roman Catholics, 3,353,433; Anglicans, 1,407,959; Baptists, 421,730; Lutherans, 287,484; and adherents of the Greek Church, 189,822.

Will Unveil Ypres Memorial

Ceremony May Be Performed By Duke
Of Connaught

London.—Preparations are in progress for the unveiling of the memorial at St. Julien commemorative of the second Battle of Ypres, in which the Canadians successfully resisted the first German gas attacks. It is expected the ceremony will take place on July 8. The unveiling probably will be done by the Duke of Connaught, with Field Marshal Lord Ypres in attendance.

General Turner, who commanded the brigade which endured the main onslaught, is coming from Canada for the ceremony.

Fear Bulgarian Peasant Revolt

May Rally to Call Issued by Deposed
Leaders

London.—Great anxiety is entertained in Allied quarters over the course of events in Bulgaria. Fear is expressed that the peasantry, which forms the backbone of the country, will rally to the call, already issued, of their deposed leaders, some of whom are still at large, and attempt a counter-revolution.

In the meantime the new regime at Sofia is rapidly displacing members of its diplomatic corps abroad who were appointed by Stambouly.

Grave Conditions In China

Washington Informed Lives of Ameri-
cans Are In Danger

Shanghai.—Conditions in China were termed "the worst since the Boxer outbreak," in a statement in which the American Association of China and the American Chamber of Commerce of Shanghai united.

The organizations agreed that American lives and liberty are endangered, and their "prestige and business are being destroyed by lack of strong action."

A cable of protest was sent to the Secretary of State in Washington.

Canadians Entertained in Paris

Paris.—E. W. Beatty, President of the Canadian Pacific Railway Company; Hon. Smeaton White, Senator of Canada; and Sir George McLaren Brown, European General Manager of the Canadian Pacific Railway, were entertained at luncheon in Paris by the Union Inter-Allied, an exclusive club.

S. I. May, Editor of The Review, Cardston, Alberta.

Forest Fires Destroy New Yorkers' Property

Value of Fishing Lodges in New
Brunswick Over \$100,000

Fredericton, N.B.—The spring lodges owned by the Metepedia Salmon Club, a fishing club made up of wealthy New Yorkers owning valuable fishing privileges and elaborate camps along the New Brunswick-Quebec international boundary, have been destroyed by forest fires. The buildings are valued at more than one hundred thousand dollars.

The fire cut into New Brunswick territory for miles up the Restigouche River from the mouth of the Upsalquitch.

A reply has been received by Col. Loggie, Deputy Minister of Lands and Mines, in a request forwarded to Ottawa for a detachment of Mounted Police to patrol the northern fire areas of the province, stating that the request could not be complied with owing to a lack of men.

Reports state the forest fire four miles out of Kedgewick, which had assumed serious proportions, was apparently incendiary.

Moose Factory In Ontario Campaign

First Vote For Citizens in Hudson's
Bay Post

Cobalt, Ont.—The citizens at Moose Factory, the far outlying post of the Hudson's Bay Co., will have an opportunity to cast their ballots at the coming Ontario elections for the first time in the history of the province. The Slater post on James Bay, situated at the mouth of the Albany River, must wait another term before enjoying a similar privilege.

Judge Caron, of Cochrane, flew by hydroplane to the shores of James Bay, and while successful in making arrangements at Moose Factory, was unable to go to Albany post because James Bay was filled with ice.

Jap Kills Countryman In B.C.
Vancouver, B.C.—Reporting to police headquarters that he had killed a man, Etsu Mori, a Japanese, led the police to Railway Street, near the waterfront, to where the lifeless body of an elderly Japanese, named Shirahashi lay with his skull crushed.

Mori was taken into custody and a charge of murder laid against him. A dispute over money matters, Mori is alleged to have confessed to the police, led to the killing.

THE "FIXED" FARMER

YOU CAN'T PUT HIM OUT OF BUSINESS

Armed Intervention In Bulgaria Declared To Be A Possibility

Federated Women's Institutes

Important Matters Discussed at Biennial
Convention

Fredericton, N.B.—With representatives from every province in Canada, the third biennial convention of the Federated Women's Institutes of Canada opened here, Mrs. W. Tobb, of Orillia, Ont., the National President, presiding.

Miss Annie Playfair, of Hartney, Man., was the principal speaker of the opening session, her topic being "Women's Institutes from a National Viewpoint."

Discussion on the address of Miss Playfair was led by Miss Annie Stuart, of Grand Pre, who thought that some of the money spent on circulars concerning fruit sales, reasonable hints on pigs, cattle, etc., could be well diverted to women's work that especially concerns the home and children.

Mrs. MacLachlan, Victoria, urged that a definite program be planned before going to Ottawa and appealed to all to use their influence in keeping British Columbia a white man's country.

"We are the front line trenches against Oriental immigration," she said. "At present every ninth child registered in British Columbia is of Oriental birth, and all are not registered. The Japanese say that with the lash of the vote they will put the white race where they belong."

"Everything depends on Ottawa," she continued, "and we need the help of all Canada." In conclusion she urged "buy at home" industrial campaigns.

Mrs. J. E. Price, of Calgary, publicly secretary, reviewed the national publicity work of the organization, stating that every province in Canada, with the exception of Prince Edward Island, carried on regular departments of news in various provincial papers, while Nova Scotia Institutes published a quarterly periodical of their own. As an example of how far and wide women's institute news is published, she cited the Peace River Record, one of the farthest north papers in Canada, carrying five stories of women's institute meetings in various parts of the district which it serves in one of its weekly issues. The policy was to get news published wherever and whenever it could be done.

Landslide Buries C.P.R. Lines

No Loss of Life In Avalanche in
Western Alberta

Calgary.—One of the worst landslides ever known on the Canadian Pacific Railway, but "unattended" by loss of life occurred June 13, between Cathedral and Field, B.C., when some hundreds of thousands of tons of mud, rock and other debris, loosened by the recent heavy rains and melted snow, rolled down the mountainside. In all, there were actually six slides, which, according to railroad officials, ran from 50 to 150 feet long and from six to fifteen feet deep.

Grain Freight Rates Bill

Ottawa.—Hon. J. A. Robb, Minister of Trade and Commerce, has given notice of a bill in the House of Commons which places control of freight rates on grain between Fort William and Port Arthur and any other port or place in Canada or the United States of America, by lake or river navigation, under the Board of Grain Commissioners for Canada.

London.—A Belgrade dispatch in The Times says that armed intervention in Bulgaria by the Little Entente is openly mentioned in Belgrade among the general public, who demand decisive action. The attitude of the Jugoslav Government towards the Bulgarian revolutionaries has continued peaceful.

It is stated that the Little Entente countries have confirmed the decision as to whether any action is necessary to Jugoslavina, and that intervention is decided upon. Sofia is to be occupied and the costs borne by the Little Entente and Greece. The Jugoslav Government says the correspondent, intends to complain to Bulgaria and the Allied Governments, that the Bulgarians army exceeds in strength permitted by the treaty of Neuilly.

Says Australia Has Great Possibilities

Development Barely Begun, Says
Prime Minister of New South
Wales

Ottawa.—The value of co-operation between the units of the British Empire, both for commercial expansion and the stability of the empire, was the keynote of an address by Sir George W. Fuller, Prime Minister of New South Wales, speaking before the Canadian Club. Sir George spoke of Australia's great possibilities; the development of which had been barely begun. He asked his hearers to cease to believe that Australia was largely arid. It was immensely fertile, and among other things of the future, Australia had the potentialities of an immense wheat production.

Great as had been Australia's development in recent years, Sir George said that it was hoped to make her still greater in the near future. To that end he had been to the Old Country and he was returning with a contract signed by Great Britain by which 6,000 Britishers were to be settled on 6,000 farms in New South Wales.

Renew Suggestions To Turks At Lausanne

Allies Asking Recognition of Pre-War
Concessions

Lausanne.—The allied representatives at the Near East Peace Conference renewed their suggestion for a provision in the Turkish peace treaty recognizing the validity of the pre-war concessions made by Turkey. Ismet Pasha, head of the Turkish delegation, said the concessions were being dealt with at Ankara, but he agreed to give his experts an opportunity to study the text of the allied proposal. The allies told Ismet Pasha that they did not think the Ankara negotiations with the concession holders were progressing as well as the Turks contended.

Among the Allies the impression prevails that the Turks are withholding a favorable reply to the concession question, pending a settlement satisfactory to them of the Ottoman debt problem and the question of the evacuation of Constantinople.

U.S. Compromise Offer

London.—The British and other governments have been approached by the United States State Department with a compromise offer permitting the ingress of liquor under seal into United States ports provided an agreement is reached to extend the limit of territory from three miles to 12 miles.

Expected Parliament Will Prorogue By End Of This Month

Ottawa.—The Liberals in caucus discussed the seasonal programme and the date of prorogation. The belief is now prevalent in Liberal circles that it will be possible for Parliament to prorogue by the end of this month.

This is understood to provide for the passage of the Bank Act, but the passage of a Redistribution Bill is regarded as doubtful. If it is decided to go ahead with redistribution this session it is expected it will be necessary to sit some time into July.

As to the banking bill the hope is expressed in Liberal quarters, that there will not be prolonged opposition to it in the house. It is expected that

it will be reported from the committee this week.

In addition to the seasonal programme, the caucus is also understood to have before it Hon. H. S. Balcan's proposals for counts of appeals for returned soldiers under the Pensions Act.

The minister, it is stated, outlined a plan for a county court of appeal at Ottawa, with boards of hearing in other parts of the country. The Court of Appeal is to be composed of a lawyer, a doctor and a business man, while two of the members are to be required to be ex-officio magistrates.

The caucus also considered, it was reported, certain proposals for legislation on forest protection to be introduced this session.

HILLCREST HAPPENINGS

(By Our Pen Dear Felix)
G. Bomborough is busy with his new garage.

The regular convention of the Knights of Pythias was held in Castle Hall on Tuesday.

G. Bomborough returned on Sunday after spending an enjoyable visit to Vancouver and other points.

Mr. and Mrs. P. Haggerty are receiving congratulations upon the arrival of a new member of the family.

The large railway trestle near the depot, which was wrecked during the recent flood, was completed on Wednesday, with the result that the mine resumed operations.

The visit of the footballers to Fernie on Sunday, the 17th, resulted in a victory for Fernie, 1-0. Great interest is being taken in the visit to Coleman on Saturday next.

F. Wolstenholme, Bellevue's lumber dealer, is doing more business in Hillcrest at the present time than all the other places combined. He is seriously contemplating moving his business from Bellevue to Hillcrest.

Considerable improvements have been effected to the tennis courts, but the question of enlarging them will have to be taken into consideration in the near future. The game is becoming very popular in Hillcrest.

COWLEY HAPPENINGS

John Kennis was a recent visitor to Calgary in attendance at the Masonic Grand Lodge.

Thomas Burles has disposed of his ranch on Olin Creek, the purchasers being F. J. Read and E. Woods.

The children of Tennyson school were winners of the gopher prize offered by Municipal District of Castle River No. 40, with 455 tails.

Robert Harrison has accepted a position with the Imperial Oil Co., Ltd., and has gone to Fort Norman, where he will spend the summer season.

The bridge on the Pincher Creek trail is again passable, a new span having been added, and the bridge crew have made a start on the Middle Fork bridge.

Thomas Sheppard, Mrs. Latfa and John Currie were severely shaken up when their car slipped over the grade and rolled to the coulee bottom at Sheffield's bridge on Sunday evening last.

George Rosenthal was drowned in the Castle River while attempting to cross the swollen stream near his ranch, about fifteen miles south west of here on Friday last. A wife and several children are left. Up to the time of writing his body had not been recovered.

A mysterious airplane passed over Blaimore on the morning of June 14th, going as far as Fernie and returning east in the afternoon.

An eighteen-pound trout, measuring 36 inches, was taken from Waterton Lake last week end by L. Morrow.

Departmental examinations are proceeding at the local high school this week, with Principal Powell, of Coleman, as supervisor.

FOR RENT—Five-roomed House, with bath. \$30 month. Apply to The Enterprise. 7-11

FOR SALE—Four Fresh Milk Cows, with calves. Apply to the Home Bakery, Blaimore. 7-11

SHORT COURSES FOR BOYS AND GIRLS

Following out the policy inaugurated last year, the department of agriculture will provide short courses of one week's duration for boys and girls who were prize winners in the school fairs of last year. These courses will be conducted at the agricultural schools at Claresholm and Olds.

Those eligible are the boy and the girl who were highest at each school fair centre in the school fair of last year. Transportation for these students will be paid to the centre to which they will attend and free board and room will be provided them during the course.

The students from the schools fairs in the Olds centre will number about 100 and will attend at Olds during the second week in July. At Claresholm in the same week, the students from the Claresholm, Gleichen and Raymond districts will attend. On July 23, a course will open at Olds for the students of Vermillion, Sedgewick and Edmonton districts. Instruction is to be given at these courses in agriculture and household economies, with members of the agricultural school staffs as instructors and demonstrators. Altogether, it is expected that about 275 pupils will be in attendance.

Alberta medical men did honor recently to Dr. J. B. Collip, of Alberta University, co-discoverer with Dr. Banting, of Toronto University, of "Insulin," the new treatment for diabetes.

Great Falls bankers were obliged to come to the rescue of the Shelby fight promoters to the extent of \$100,000 last week in order to permit them to meet their second payment on the \$300,000 to Jack Dempsey.

So anxious was he to reach Alberta that a Presbyterian minister from Nebraska drove all the way from that state to Edmonton with a horse and buggy. He is sixty years of age and made the journey in good shape. He will take up a homestead near Edmonton.

Considerable praise for the manner in which Alberta municipalities have put their financial affairs into good shape was given recently by the convention of bondholders in Winnipeg. With one exception it was stated that Alberta now presents a clean sheet so far as the bondholders of municipalities are concerned.

The whole council at Summerland, B.C., is disqualified. They borrowed \$44,200 from the provincial government for irrigation purposes and permitted a lien to cover every individual lot as well as the whole municipality. Special legislation is now necessary to break the tangle.

The Bellevue band will hold a concert at the Pavilion, Crows' Nest Lake on Sunday, July 1st. A collection will be taken to defray expenses.

The Lake Pavilion, located at the east end of Crows' Nest Lake, opens on Saturday evening next, with a dance. Mr. J. S. Bennie, of Coleman, is manager of the Pavilion and promises to give service and satisfaction to all patrons. He is also placing a motor boat on the lake to rent out.

We are requested by the superintendent of delinquent and dependent children of the Province of Alberta to advise that at the present time the department has about fifteen baby boys and a few baby girls of from one to three months old to be placed in desirable homes. At present difficulty is experienced in obtaining applications for the boys. Applications will be promptly dealt with and further information furnished on request by the Department of Neglected Children, Old Parliament Buildings, Edmonton. The department realizes that there are a number of homes in this district, particularly Blaimore, that are sadly in need of children.

Local and General Items

For funeral services phone 212. Crows' Nest Pass Undertaking Co.

Lethbridge labor will vote "No" in the forthcoming liquor referendum.

Bert Mackenzie and E. Stanley left here Wednesday morning for Los Angeles.

Miss Margaret Kemp, of the West Canadian office staff, is holidaying at Seattle.

The "Boston Kid" will be the guest of His Majesty The King at Lethbridge for the next two months.

At the Masonic Grand Lodge session in Calgary last week, Rev. Dr. K. Allan, of Coleman, was elected grand chaplain.

Mrs. J. W. Gresham and Miss Louise are the guests of Mr. and Mrs. H. C. Dillingham at Innisfail for a few days.

Arrangements are being made for the annual summer camp of boys and girls. We understand that the camp will again locate at Lee Lake, near Burnin.

Joe McDougall returned the early part of the week from Fernie, where he was relieving the accountant of the Home Bank, who was recently married.

Dr. J. McCartney Wilson, pastor of Knox church, Calgary, has been appointed by the general assembly to the chair of practical theology at Knox College, Toronto.

The death of H. Uttendorfsky occurred at Bellevue on Saturday morning last, following but a brief illness. Uttendorfsky leaves one child, a girl of about fifteen years.

The town council sat as a court of revision this forenoon to hear appeals against the assessment for 1923-24. About eleven appeals were heard, only two of which were granted.

Mr. and Mrs. M. B. Huffman and children spent last week end in Calgary. Mrs. Huffman and children left for Edmonton on Monday where they will spend the summer.

Messrs. Sam Fraser (district deputy), A. B. McMurdo, T. A. Tayson, and A. R. Schoening, of Pincher Creek, attended the regular meeting of the local I. O. O. F. on Tuesday night, on the occasion of the official visit of Grand Master L. Y. Stuart.

The residence of W. Knight, in East Blaimore was searched by the A. P. P. on Saturday evening last, when a small quantity of liquor was found. Brought before the magistrate, a fine of \$250 and costs was imposed.

Mrs. Glen A. Glyndon and daughter, Donna, arrived in Calgary last week end from Lyons, France, to spend the summer visiting relatives in Alberta. Mr. Glyndon is manager of the International Harvester company's office at Lyons. Mrs. Glyndon is a sister of M. B. Huffman, of The Enterprise.

Jack McPhail entered a local barber shop on Wednesday afternoon and enquired as to which was the cheapest, a haircut or a shave. He was told that a haircut would cost four bits, while he could have a shave for two bits, whereupon he entered the chair and asked the barber to shave his head.

Mrs. M. Bowman, who has been visiting in Blaimore for a few weeks, arrived home Monday, and will leave tomorrow for Detroit, Mich., to join her husband, who is employed at the Ford Motor Works—Drumheller Review, June 15.

J. Rader, Italian consul of Calgary, is in town today.

Today is the longest day of the year, and incidentally one of the wettest.

Midsummer Day—and we haven't had an opportunity to don our Easter bonnet.

Mr. J. R. Marshall, of Red Deer, has taken a position in the store of the Coleman Trading Co.

The Ontario Grand Lodge of the I. O. O. F. is in session in Toronto this week, with 750 in attendance.

M. Belecky has appealed to the District Court against the assessment of his hotel property in Blaimore.

First Bachelor—"Who gave the bride away?" Second Bachelor—"No one, we all kept our mouths shut."

Mr. and Mrs. F. Palmer went to Lethbridge on Monday where Mrs. Palmer entered hospital to undergo a critical operation.

Joe You, one time connected with the King George Cafe here, but now operating at Macleod, is a visitor here for a few days.

J. P. O'Neill, Pass district manager for P. Burns & Co., left Saturday night on a two weeks' visit to his old home in Brockville, Ontario.

J. P. J. Jepson, Calgary old-timer and one of the veteran barristers of the province, died suddenly at Calgary on Friday morning last.

Ratepayers of Vancouver are urged by the press to vote "No" on the daylight saving plebiscite on the grounds that Daylight Saving is class legislation.

A. G. Browning, deputy attorney-general, has been offered the position of counsel to the attorney-general of Ontario in the enforcement of the Ontario Temperance Act.

Evidently Blaimore possesses the meepest personage of the age. That individual entered the tennis courts near the Union church one night last week and deliberately cut to shreds the tennis nets and otherwise put out of commission a source of pastime for a large number of young people. The police have an idea who the guilty party is and if brought to justice no leniency should be permitted.

RUPTURE

EXPERT HERE

SEELEY, FAMOUS IN THIS SPECIALTY, CALLED TO CALGARY

P. H. Seeley, of Chicago and Philadelphia, the noted truss expert, will personally be at the Palliser Hotel, and will remain in Calgary this Sunday, Monday and Tuesday only, June 24, 25, 26, and at Lethbridge Hotel, Wednesday, June 27. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly but contracts the opening in 10 days on the average case, being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions. Warning—All cases should be cautioned against the use of any elastic or web truss with under straps, as same tend where the lump is and not where the opening is, producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D.C., for inspection. He will be glad to demonstrate without charge or fee if they are desired. Business demands prevent stopping at any other place in this section.

P.S.—Every statement in this notice has been verified before the Federal and State Courts. P. H. Seeley, Home Office, 117 N. Dearborn Street, Chicago, Ill.
